Every slot has a set of symbols, and normally when 3 or more land on a payline they form a winning combination. While some slots have fixed paylines, such as the 10 winning lines you can find in Netent's Starburst, some of the latest slots have done away with the traditional payline and introduced 243 and 1024 ways to win. This means that you win if you simply have identical symbols on adjacent reels, such as in Aristocrat's Buffalo.

We check the background of every casino we review to make sure your funds are safe. We ensure these sites hold top licenses, such as the ones issued by the Malta Gaming Authority (MGA) and the UK Gambling Commission (UKGC). Secure payouts are also a sign of safe online casinos that care about their players, which is why we will give points to a gambling site for having reliable banking transactions. We also make sure that our recommended sites carry out Know Your Customer (KYC) procedures, which verify the identity of players.
