Night casino rush online

One of the Canada casinos online, Night Rush was developed by ISoftBet, Quickspin, Evolution Gaming, NetEnt, Microgaming and NextGen Gaming. Even though not many developers have worked on this casino, it still has innovative cutting-edge technology. It grants that you can play here from whichever device you want since it's supported by any operating system be it Windows, Android, Linux, Mac, iOS or Windows Phone. What's more, you can enjoy real life experience playing in the NightRush live dealer casino.

The number of games you can play at Night Rush is rather limited compared to other casinos, there are just 500+ gaming options. Yet, you can still play all the main types of casino games here, which are Slots, BlackJack, Roulette, Video Poker, Live Casino, Table Games, and Jackpot. More details about the variety of games available at NightRush casino you can learn in the corresponding section below in this expert Night Rush review.

Besides, you can place your sports bets at NightRush. Pay attention that you cannot play in NightRush via VPN. If you do, all of your winnings will be confiscated and you might be fined or even blocked by the casino administration. Besides, Night Rush casino uses an SSL encryption that serves to protect your personal secret data and banking details.

No doubt, NightRush is a reliable casino since Malta Gaming Authority (License Number: MGA/B2C/312/2015 issued on August 1, 2018) grants that it is safe and fair. In case of any violations, Bethard Group Limited will be considered responsible and might suffer consequences. That is why you have definitely nothing to fear if you choose to play in this casino.

A really cool thing about NightRush is that here you can enjoy jackpot games! The problem is that jackpots aren't listed as a separate category, instead they are included into slots. That's why you might find it quite annoying being forced to scroll down through slots until you find a jackpot. And it takes quite a lot to come up with a decent number of jackpots to choose from. Among the most popular jackpots available at Night Rush, we can certainly list Live Three Card Poker, Holmes & The Stolen Stones, Ozwin's Jackpots, Jackpot Rango etc.

Check the website that you can find in the table to see that it is quite user friendly because of easy navigation. The main focus of the website is, certainly, drawn to the games and bonuses. On the top of the home webpage, there are the following sections: casino, live casino, live odds, sports, and offers. At the bottom, there are less important sections. Besides, there's a very convenient side-bar located at the bottom which lets you easily change the language and contact support as well as get quick access to the following categories of games: new, popular, last played, and favorite. The only inconvenient thing about the NightRush website is that you can't specify that you want to play jackpots since there's no such category listed among others. Basically, you have no other option but to scroll down through slots until you find a jackpot. And it takes quite a lot to come up with a decent number of jackpots to choose from. That's a substantial disadvantage for gamblers whose top priority is jackpots.

Mind that the deposit limits usually depend on the banking option that you use.

For instance, using Visa or Mastercard you can make the min deposit of C\$10 and the max sum of money you can deposit on your casino account is C\$7,500 per transaction. Using insta debit or debit, your min deposit also has to be at least C\$10, while the max deposit can't exceed C\$ 100.00. With ecopayz, the deposit limits are C\$10 – C\$4,000, while Interact lets you make the deposit transactions within C\$ 10.00 – C\$ 2,500.00.

That's why we recommend you to use the insta debit and debit for large transactions. In such a way, the min withdrawal you can make is C\$20, while the max is C\$50,000 per transaction! Every online casino offers some sort of welcome bonus to new players. These promotions exist as a means of welcoming new players. Casinos aim to have new players continue to play their games and use welcome offers to encourage players to do so.

Night Rush has gone a different path when it comes to its welcome offer. Unlike most competitors, this casino doesn't provide a deposit match or free spin bonus. Instead, this operator invites new players to a weekly tournament. The process involves players enjoying their favorite slot games and marking their names on the leaderboard.

Online casino night rush

The tournament play lasts between every Monday (CEST 00:01) and every Sunday (CEST 23:59). Players also receive prize payouts on Mondays. So, what's the prize bonus? The weekly prize pool is NZ \$1,000 with 1,000 Free Spins, which the top 50 tournament players share on Mondays of each week. This tournament prize pool amounts to NZ \$4,000 with 4,000 Free Spins every month.

The process of winning the tournament is straightforward. The first step requires you to play a minimum of 100 game rounds on any available slot games. You need to wager at least NZ\$1 on the qualifying slot games to earn points. Improve your result by playing as many game rounds as you like. Use your result improvements to move up the tournament leaderboard, and claim the prize once the tournament has ended.

Here is the prize pool each week, according to your position on the leaderboard:

Players from only six countries (Canada, Malta, Austria, Germany, Norway, Finland) are eligible for this tournament. Also, playing any slot game at Night Rush qualifies you for this campaign. While you receive tournament prizes in the form of a bonus, this bonus comes with a 10x wagering requirement.

You cannot bet more than NZ \$5 per game/spin when wagering a bonus. On the other hand, the minimum bet is NZ \$1 per round. Winners will need to wait up to 48 hours after the tournament has ended to receive their prizes. At the same time, for every NZ \$1 wagered in the slots, players receive 1 point as a result.

Pragmatic Play's Daily Drops & Wins Tournament enables players to win €2,000,000 in cash. You can win significant Weekly Tournaments, and Daily prize drops until February 10th, 2021. This promotion features 224 Daily Prize Drops (prize pool more than €4,600), 32 weekly Tournaments (prize pool €30,000), and monthly cash prizes of €250,000 (total of €2,000,000).

Each of the weekly tournaments occurs between Thursday and Wednesday, with parallel Prize Drops. To win weekly prizes, play any of the qualifying Tournament games. Your goal is to hit the highest single spin win amount, adjusted for the amount of your bet. You can also trigger a random cash prize drop with any real money spin in the qualifying games.

Players will need to meet the minimum bet to participate in the prize drop and tournament, which is €0.50. Improving your result is possible by playing as many game rounds as you'd like. The prizes are available immediately following the tournament's end or the day after the tournament and prize drop.

Regardless of being somewhat new in the industry, Night Rush Casino continuously adds games to its portfolio. After all, the game selection at an online casino must be broad enough to satisfy even the pickiest of players. Night Rush joined forces with the most reputable providers in the industry to ensure players don't run out of choices.

Because game providers release new titles every year, the majority of games at this casino are slots. The lobby is straightforward and intuitive, helping players navigate without difficulty. The right-hand side of the lobby is home to filters you can use to get around more quickly. Finding a specific game is simple thanks to the search bar, or you can filter games by provider.

The most popular slot choices include Vikings Go Berserk, Holmes and the Stolen Stones, Eastern Emeralds, and the Vikings Video Slot. On the other hand, every online casino also features jackpot slots. These slots also exist in many establishments under the name "progressive" slots. This game's appeal lies in the fact that a minor percentage of every spin goes towards a collective pot. As a result, some of the jackpots grow to be enormous.

At Night Rush Casino, some of the favorite jackpot slots available to players include Hall of Gods, Arabian Nights, and Mega Moolah. The prize pool in these games at Night Rush regularly exceeds seven figures.

Essential to keeping every player happy, table games were among the first to find their way into online casinos. At Night Rush Casino, you'll see many variations of roulette and blackjack games. Standard variants of these games have dedicated lobbies, but the table games section is where you'll have the most fun. Examples of some of the games you can enjoy here include traditional Baccarat and Casino Hold'em.

If you're looking for a great place to enjoy video poker, look no further than Night Rush Casino. The most basic variant of this game is Jacks or Better, which is perfect for beginners. Once you build your confidence, you can switch to Joker Poker and Deuces Wild.

However, one thing you should keep in mind is the absence of several game favorites from this casino. Bingo-style games, keno, and scratchcards are not on offer at Night Rush. Note that a lack of these games does not diminish the otherwise excellent game selection. But, fans of these games might choose the competition as a result.

You'll experience seamless ease of use from smaller displays thanks to the mobile interface. Provided your phone is in okay condition, you should not experience any lagging or glitching. The featured titles in the mobile versions of the games work well across all mobile platforms and operating systems.

A vital part of any online gambling operator, including Night Rush Casino, is Live Dealer games. At this operator, you can choose between more than 16 different live games. Expect to have a top-notch gaming experience despite the number of available games being lower than expected.
