When playing online, players have concerns that a certain slot is legitimate, safe, and secure. You can be assured that Crystal Land is scam-free and provides a risk-free playing environment to play in. The developer behind the game is a market leader and ensures that its games are fair.

The developer behind the game is Playson, a respected developer that is responsible for some of the most well-known slot titles out there. Seeing that Playson is responsible for the game should give players extra confidence that all is good and above board. It is also easy to play Crystal Land scam-free slot machine.

What makes Crystal Land casinos yearn for the game is that it is unique because it lacks the paylines feature. Instead, it has clusters. A cluster of 5 or more of the same symbol can trigger a winning combo. This offers many more chances to win than you would usually get with a traditional online slot game.

Players are able to wager as little as 20p per spin. The maximum wager is all the way up to £100 for each spin. This makes the slot suitable for players with varying budgets. As a high volatility slot, players can't expect frequent wins, but when they come, they're rewarding.

Spin online crystal casino

As we have seen, this game gives players great chances to win by using clusters rather than a set amount of paylines. Add to this that the maximum wager is relatively high, and this allows for big wins. This opportunity is part of what makes this title so popular.

Perhaps disappointingly, the game doesn't have a built-in free spins feature. Free spins are very attractive to players, but Crystal Land casinos make up for this in other ways. One way is the multiplier that can be unlocked and boost winnings by 9 times. This increases the winning potential.

Anyone that plays online slots will always have an interest in the return to player rate (RTP). The Crystal Land RTP is 95.20%. This is certainly not the highest RTP in the world of online slots, but it is still respectable. Nonetheless, online slots like Starburst and Danger! High Voltage offer a higher RTP rate, and you should also check them out.

All UK online casinos must have a licence from the UK Gambling Commission. Knowing a casino has this means that you can play scam-free. They are also audited by the likes of eCOGRA to ensure that any RTP information that is published is accurate.
