What is "No Credit Needed" or "Regardless of Credit". Your credit may be checked, including your credit score, but the

application process does not solely depend on your credit score for an approval. 2. What are the requirements to qualify for the Regardless of Credit solution. A typical credit check, also known as a credit history check, is when a company views your history of credit, other accounts, and credit score with a credit reporting agency, also known as a credit bureau. 4. Do you perform credit checks. When you apply for a financial solution through American First Finance, your credit is checked using a hard credit inquiry also known as a "hard credit pull". A hard inquiry occurs when a company with whom you've applied for credit reviews your credit report, history of applying for credit, payment history, and your credit score as part of the decisionmaking process. This type of inquiry appears on your credit report and may influence your credit score. Applicants with mediocre, poor, or even no credit can still receive an approval, but a credit check is part of the application process. You are invited to apply no matter what your credit history is! 5. What if I have bad credit or filed for bankruptcy in the past. You can still get approved. An ITIN is an Individual Tax Identification Number issued by the federal government for noncitizens working and paying taxes in the U.S. 7. Do I need to have a job to apply.

Fulltime employment is not necessary as we may consider different forms of income, such as income from Social Security, retirement, pension, and selfemployment. 8. What is an ACH authorization. An ACH Authorization is your verbal or written instructions that allow us to electronically withdraw a specified amount of money from a bank account or debit card on an agreedupon day. 9. How do I make my payments. If you have selected to have your payments automatically reoccurring, payments will be ACH transferred from the bank account or debit card provided on your application. If you have not selected to have your payments automatically reoccurring, you can access your account via www.americanfirstfinance.com to make your required payment. Charges will appear on your statement as American First Finance, not the store where you selected your merchandise. 10. How do I know when a payment's due. The first payment and schedule of payments are provided in the loan documents. It is also provided after the application is completed. Additionally, you can see your payment schedule online in your customer account at www.americanfirstfinance.com. 11. Can I cancel this loan. Yes, just be sure to cancel before you make a transaction with your virtual card. 12. Who is American First Finance. American First Finance is a leading consumer financial technology company that provides alternatives to traditional retail lending and designs solutions to support both businesses and their financially underserved or overlooked customers. American First Finance services FinWise Bank installment loans. 13. Who is FinWise Bank. A virtual card is a digital version of a physical, plastic credit card. It is a set of sixteen digits similar to a credit card number together with a CVV code that is used for payment transactions.

<https://koeltotaal.com/images/Dialysis-Technician-Training-Manual.pdf>

This card will be displayed on your smartphone or laptop screen upon completion of your loan documents and can be used immediately for purchases. 2. What are the benefits of a virtual card. A virtual card will instantly appear in your app and can be used right away so you can securely pay for goods online and over the phone, without displaying any of your personal or financial information or waiting for a plastic card to arrive in the mail. And, since it's a virtual card, it is less likely to be lost or stolen. 3. When will the funds be uploaded to my virtual card. Funds will be available through your virtual card upon the completion of your loan documents. 4. How can I access my virtual card, or what if I have not received my virtual card. The virtual card will initially be displayed upon completion of your loan documents. If you have used your virtual card, it will no longer be displayed, and any unused funds will be ACH transferred to your bank account. 5. Where can I use my virtual card. Your virtual card can be used online or over the phone for any purchase. If you plan on using

your virtual card in a store, simply show the cashier your virtual card and they can enter the card information manually in a “card not present” transaction. Please note, acceptance of a “card, not present” transaction is up to the merchant or store’s discretion. 6. What is a pending transaction. A pending transaction is a payment which has been authorized, but it’s still waiting for the merchant to accept or reverse it. The merchant has up to seven days to do this, but it can take up to 15 days if it’s an ecommerce preauthorization. The money will be sent back to your card automatically if the merchant hasn’t taken any actions after this timeframe. Virtual cards should not be used for recurring card payments e.g., subscriptions or monthly payments or with merchants requiring a preauthorization e.g., car rentals or hotel bookings. 7. What happens to my unused funds.

If you use any amount of your virtual card, the remaining funds will be ACH transferred to your bank account that you provided during the application process, once your pending transactions have finalized. If you have NOT used any portion of the funds on your virtual card, those funds will be ACH transferred to your bank account after four days from signing your loan documents. 8. What if my payment is due and I haven’t used my virtual card or received the funds yet. American First Finance will not collect payment if you have not initiated a transaction with your virtual card. The initial transaction will trigger an update to your payment due date and will align with your pay cycle frequency indicated on your application. If you have not used your funds in four days, funds will be ACH transferred to your account, and the date those funds are transferred will trigger an update to your payment due date and will align with your pay cycle frequency indicated on your application. Here we will cover the installation of firebox inserts into the existing fireplaces.

However, in most cases, you will need to hire a licensed electrician to help you install a power outlet inside your old fireplace opening. Please note that they may be slightly different depending on a particular brand of the electric insert you are installing. Please refer to the product manual of your electric insert for details. This cover plate will prevent water from coming in if your chimney doesn't have a rain cap. If you want to keep the area around your fireplace free of hanging cords, you will need to install an outlet inside of your existing fireplace. Then center, and level it. You might need to adjust the leveling screws if those are available with your model of the electric insert. Some inserts will have tiedown brackets that you will need to attach to the fireplace floor and the back of the insert on both sides to secure your insert from tipping. Some inserts come with glass frames, others with metal trim. You can also use your own custom trim like in the video. The installation might be slightly different depending on the brand and your particular project. Most of the product manuals are published on our website in downloadable PDF format on each product page. Installation is a simple twostep process Preparation and Installation. Here is how its done. This begins the curing process. Until the steel gets heated up and cured there will be some runoff. Each time the fire pit is used the patina bakes into the steel and less runoff occurs. In this article, you will find videos with step by step instructions and a downloadable PDF installation manuals to help you properly install and use your new water vapor fireplace. 3 If your heater does not emit heat, ensure the switch is on and the thermostat is turned fully to the right. If this does not work, switch the unit off for 5 minutes and try again. Consult page 5 of your Practical Users Guide for further information. The trim around the heater outlet becomes hot during heater operation. Return heater to authorized service facility for examination, electrical or mechanical adjustment, or repair. 10. Do not use outdoors. 11. Do not use this fireplace in the immediate surroundings of a bath, a shower or a swimming pool. 12. Do not install the fireplace directly on carpet or a similar surface which may restrict air circulation beneath the unit. 13. Do not run the cord under carpeting. Do not cover cord with throw rugs, runners, or the like. Arrange cord away from traffic area and where it will not be tripped over. 14. Do not locate the heater immediately below a fixed socket outlet. 15. To disconnect the fireplace, turn the controls off, then remove the plug from the outlet. 16. Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage to the heater. 17. To prevent a possible fire, do not block air intake or exhaust in any manner. Do not use on soft surfaces, like a bed, where openings may become blocked. 18. All electrical heaters have hot and arching or sparking parts inside. Do not use in areas where gasoline, paint, or flammable liquids are used or stored or where the unit will be exposed to flammable vapors. 19. Do not modify the electric fireplace. Use it only as described in this manual. Any other use not recommended by the manufacturer may cause fire, electric shock or injury to persons. 20. Avoid the use of an extension cord. Extension cords may overheat and cause a risk of fire.

If you must use an extension cord, the cord shall be No. 16 AWG minimum size and rated not less than 1875 watts. 21. Do not burn wood or other materials in the electric fireplace. 22. Do not strike the fireplace glass. 23. Always use a certified electrician should new circuits or outlets be required. 24. Always use properly grounded, fused and polarized outlets. 25. You can fit the logs easily in an existing fireplace without having to worry about fuel. The fact that electricity is cheap and available everywhere gives these logs an edge the most preferred heat source. When looking to upgrade your fireplace, electric logs are the direction to take. Different brands are flooding the market, and sometimes selecting the best electric fireplace logs can be challenging. Below, we have reviewed some of those worthy options, led by Duraflame DFI021ARU and Dimplex Revillusion RLG25, that you can count on your fireplace without thinking twice. This set of logs is placed in an existing fireplace and produces an undeniably realistic flame. The flame is projected to the rear, giving it an authentic look. You can operate the flame with or without heat for decoration purposes. These infrared quartz logs are neatly arranged and sit on a black fire grate and resemble a real Oak. The pulsating dancing flame will impress you with the look of real Oak wood fire. As it uses infrared technology, it efficiently distributes the heat in the room. It also helps in maintaining comfortable air humidity in your house. You can control the logs from your seat anywhere via the remote control included in the package. The handheld remote has functions for turning on and off, adjusting the heat output, and controlling the flames effect. How do you install the fireplace. Installation of the unit is easy since no venting or fuel lines are required. Just place the grate in the fireplace, pass the cord to the back of the fireplace, connect to a power supply, and you are good to go. With these logs, you can enjoy a favorable temperature in your house despite outdoor changes. Dimplex Log Set insert comes with a ceramic burner with a capacity of up to 5,000 BTU.
