This service information is intended to be used by a qualified service technician, who is familiar with proper and safe procedures to be followed when repairing, replacing or adjusting any Dixie Narco

vender components. All repairs should be performed by a qualified service technician who is equipped with the proper tools and replacement components, using genuine DixieNarco factory parts. Persons not having the proper background may subject themselves to the risk of injury or electrical shock which can be serious or even fatal. The vender serial number takes the form xxxxyyyyzz. The first 4 digits xxxx identify the specific vender. The next 4 digits yyyy identify the manufacturing run that the vender was built in. The last two alpha characters zz identify the quarter and the year the vender was built. The SII Electronic Vender is designed to meet the growing need for accountability, multipricing, programmability, and system diagnostics in can vending equipment. This data can be used to maximize the efficiency of routes for servicing venders. The vender design provides the flexibility required for the changing beverage industry as well as dependable performance for many years. This manual is prepared to assist the proper installation and setup of the vender. Please read this manual carefully and become familiar with the SII Vender before placing the vender on location. Receiving Inspection Upon receipt, inspect the vender for shipping damage. If there is any damage, have the driver note the damage on the Bill of Lading and notify DixieNarco. Although I.C.C. regulations require that the consignee originate shipping damage claims, DixieNarco will gladly help if you must file a claim. Unpacking The Vender Remove the stretch wrap and top covers from the vender. If flavor cards were shipped with the vender, they will be in an envelope affixed to the back of a vender in the shipment. The shipping boards are attached by the leveling legs. GitHub Gist instantly share code, notes, and snippets.

This specific model is exclusive to CocaCola bottlers. The former DixieNarco glass front products are still produced today under the CMS brand. Trump also asserted that the machines had often broken down. The design was updated in 2008 as the Bevmax 3, where the delivery cup height was raised and speeds were increased. In 2009, a further updated version known as the Bevmax 4 was introduced. The Bevmax 4 features even faster vend speeds and is more energyefficient, optionally using LED lighting rather than fluorescent and meeting Tier 2 later updated to Tier 3 Energy Star standards. The Bevmax 4 is available unbranded or through select CocaCola, Pepsi, and Dr PepperSnapple bottlers. Named for extended cabinet, because it was enlarged fit 20oz. No longer available as of 2009; replaced by the Bevmax 4. AddisonWesley. p. 819. ISBN 0201532859. Retrieved 15 January 2019. By using this site, you agree to the Terms of Use and Privacy Policy.
