Comes with manual, box and battery cover. It works perfectly and sounds great. There is a spot on the side where the paint is bubbling a bit, it's hard to see in the pic. <http://www.jbplant.co.uk/files/career-guidance-manual.xml>

Items must be returned in original, as shipped condition with all original packaging. Please check the fields highlighted in red. Subscribe to our free newsletter Request a new review I know DOD was trying to separate themselves from BOSS and the likes, but the nonstandard power jack is just annoying. UTILIZATION It's a fairly easy chorus to tweak, even though it has some interesting controls. The Level knob Which is really a Mix control is fun to play around with dialing in different amounts of chorus. The Delay Time is another fun thing to mess with, changing how much the signal gets detuned is something not many chorus

let you do. The only problem It never went far enough, but more on that in a bit.<http://www.magneticmicrosphere.com/userfiles/career-retention-manual-usmc.xml>

The Speed and Depth controls are pretty standard, nothing special there. Since I got it used I cant comment on how clear the manual is, because when I got it it didnt come with one. As I said though, its a pretty easy chorus to dial in. SOUND QUALITY Here is where Stock, my you the pedal falls short. It was VERY subtle, almost being to the point where it really isnt any point to using it. I spent several hours tweaking knobs trying to get it to stand out, but it just wasnt happening. I googled around for mods for this, and there really isnt much on it. I found a thread were some recommended replacing a cap with a higher value to make it more obvious by increasing the delay time. I replaced the stock capacitor with one several times its size, and voila. It is now MUCH more obvious, and much more usable. Its a pretty 80s chorus sound, so if thats something you are looking for once modded this can do that well. Its not exactly the most natural sounding chorus out there, but its not sterile by any means. Definitely very full and deep sounding. I only gave it a 5 because Im rating this for its stock performance. But hey, maybe you are looking for a subtle chorus, then this very well might be the one for you. OVERALL OPINION Overall, after I modded it, I like it quite a bit, and use it quite often. I think it sounds better than the Made In Japan BOSS CE3 chorus I have as well. I love how good it sounds now that I modded it, and I also love how versatile it is. Besides standard chorus sounds, I can do some pretty whacked out space alien sounding stuff with the knobs dimed. I dont like that stock it was much too subtle for me, being to the point of being unusable. I mainly play Thrash metal with some droptuned stuff thrown in, and I run a Peavey Ultra 60 watt tube amp into a 5150 Straight cab with V30s and G12T75s. My main guitar is a BC Rich Warbeast NJ Deluxe with EMGs running at 18 Volts. I use the chorus for cleans and leads mainly, and it works great for me.

Having used it for several months now, I would definitely buy it again. Did you find this review helpful yes no. The famous black plastic switch DOD, the dreaded. And with whom I have personally never had any pb. UTILIZATION 4 controls Level, Speed, Delay Time, and Depth. Take the time to try combinations, because in addition to the commands of depth and speed, classic, the delay control allows many things undreamed SOUND QUALITY Ebnetter Kate, an American expert on the effects, and has about 250 pedals I know, I know. admits that DOD has produced the best chorus she knows. And she knows a bunch. Indeed, listening, the sound is typically analog, less than Ibanez CS9 and metallic for my taste much richer than a Boss CE5. And the stereo is absolutely beautiful. However, it lacks the magic of a FX60 or FX65. By using our services, you agree to our use of cookies. Find out more. I tried plugging it in, and I realized why I never bother with it. A lot of people complain that its too brittle. Thats not the problem I have with it. They look nearly identical, and from what I can hear on Youtube sound nearly identical. Has anyone seen or done any comparisons Those of you who know and. The Boneshaker. Missing the battery connections and compartment cover. The manual says it wants 9vDC or 10vAC. Since I dont have a 10v ps to test it I have no idea if this works. I have a couple of good analog delays and I know a bit of hiss coming with the repeats is normal but on the rubberneck. The battery cover is gone, the mode selector a little bent, and the battery connector is gone. Otherwise it looks to be in great shape. Man the schematic for this one is non existent. I did find the regular 565. I was seeing if anyone out there has one in full working condition.

<http://ninethreefox.com/?q=node/15442>

I need some pictures of the wiring to the. Also I did a mental jump over the Gunslinger when it came out, mostly because I already have a lot of ODs, but I keep reading glowing mentions of it here on GP. The price makes it a no brainer, so Im probably just gonna get one what am I in for I have the DOD 250 type pedals to run into the pedal. It will be running into my Reeves Custom 50. What Ive tried. Wampler Pinnacle, Ramble FX Marvel Drive both nice pedals but didnt do it for me with my

rig. Any ideas Chase Bliss. Eventide H9. Ive got a Mission Expression pedal that I bought used on Reverb. Mission stuff is great, but whoever originally bought it requested a custom spring to push it back to full. Seems like there might be some overlap. Though the DOD can do a bit of the gated thing as well. Preference, Similarities, Differences I dont have a breakout cable for the FX loop, but will soon. What effects have you tried in the loop. What do you like Im excited to try that when it comes in. Let me first say that this issue only occurs in a very specific configuration. Normally. I think someone wired something wrong on it as it is not working right. Got it in a trade. Guy might have said one of jacks had problem. Anyway, Ive been doing some troubleshooting and I can only get it to work right when I am touching one of the. country that participates in the Global Shipping Program. If you live anywhere else and have an address in the U.S. I can ship your item to. I would be glad to do that. If you have excessive negative feedback. Email before you bid or I will cancel your bid. I describe items to the best of my ability, and if I say it works, it works. Therefore if an item arrives differently than described, email me within 3 days. Fairly standard chorus pedal. This pedal is in excellent condition and is all original. All the components and parts of the pedal are in great, working condition. Knobs, battery compartment door, and rubber pedal pad are all clean, in great condition, and work like factory new. He was used every one of them and assures me that all work well. Unfortunately he didn't tell me what each one does but I know they are all effect pedals. This particular one is a light blue colored stereo chorus. The only problem that it has is that the battery concealment cover is missing but that is not necessary to play beautiful music. This item is as is and comes with what you see in the picture. If there are any questions feel free to ask as I get back in a timely manner and yes I do combine shipping if you are interested in any of my other items. But then I upgraded to a Roland JC77 Jazz Chorus amp. So it's been sitting in my closet for years. I've cleaned it up and tested it and it still sounds great. Still gets that jangly Les Paul sound or the tone from the moody Chameleons. I lost my job in October so I'm liquidating my home studio to pay some bills. Sorry.

No international orders for music hardware. I've had too many difficulties with items being lost or destroyed in the mail. Check out my On CD you'd swear it was the real thing. I've owned many of these over the years and this is the best of the bunch. It's handpicked and very clean. I now have a real Leslie so someone else can enjoy the fruits of my tone quest. The fast Leslie tones are much superior. As I said, this is the best of many FX65s I've bought and sold over the years. Local pickup with cash payment will receive a discount. Check for reviews from. I have 100% positive feedback so BID WITH CONFIDENCE! Works well with other pedals in line as well. Simple to use and no steep learning curve. The FX62 Bass Stereo Chorus was derived from the FX65 Stereo Chorus. But voiced for bass guitar with a longer delay time. Like the FX65, the FX62 is an analog chorus, using a MN3007 BBD chip. The FX62 debuted in 1987 and remained in production until it was replaced by the FX63 in 1996. Controls Speed. Delay Time, Depth From the manual 1987. Shared with the FX60 and FX65. It does this by delaying the sound of the instrument a small amount 46 milliseconds and continuously varying the amount of delay. The delayed, slightly pitch shifted. The FX62 Bass Stereo Chorus is a three control knob chorus effect, optimized for the bass guitar, and offering adjustment of the sweep SPEED, the DELAY TIME, and the sweep DEPTH. TL062, 1458 type, or 358 type Internal trim pots one; however. We do not recommend messing with trim pots. Components side circuit board image November 1987 Related circuits FX60 later versions FX65 FX heritage FX62 FX63 Need cash to buy amp. Write with any questions. Detailed item info Product Information Boost your guitar performance with the DOD FX60 guitar effect pedal that allows you to adjust sweep, speed and depth. This DOD Chorus effect pedal features stereo effect generation for installing stereo amplifier.

Other notable features of the DOD FX60 are rubber nonskid bottom, adapter jack for A.C. operation.. more Powered by The free listing tool. List your items fast and easy and manage your active items. Item is in perfect working order. Only missing the top of the far right knob. Knobs are clean and not scratchy. Pedal sounds really good. Also includes the battery door. Which is something that's normally missing on a vintage DOD pedal. No international shipping. Amazingly cool chorus pedal. Was kept in a smoke free studio. Typical players wear. Ready for the studio. Pedal board or your collection. Local pickup very welcome. International shipping available. SALE IS FINAL. SOLD AS IS with NO PARTIAL REFUNDS. Item will be packed VERY well. Item will be shipped to the LOWER 48 CONTINENTAL STATES ONLY at quoted price. Alaska and Hawaii please contact me for a shipping quote. Payment required within 72 hours of auction close. It does this by delaying the sound of the instrument a small amount 46 milliseconds and continuously varying the amount of delay which changes the pitch of the delayed signal. The delayed. Slightly pitch shifted signal is mixed with the

original signal and results in the chorus effect. The FX60 Stereo Chorus is a twocontrol knob chorus effect, offering adjustment of.Great sounding chorus pedal for the money. Returns are accepted with in 14 days after receipt if you do not like your item. Buyer pays for postage and insurance if returned. No worries. No hassle and I strive for 100% buyer satisfaction. I will pack well. I will use a new box and fresh packing material. The item will be shipped immediately after I receive payment. I use USPS priority mail but sometimes use parcel post on the bigger items. Thanks for looking! USA MADE D OD FX60 STEREO CHORUS GUITAR PEDAL IN EXCELLENT CONDITION, WORKS EXCELLEN T. IT COMES WITH ORIGINAL BOX AND MANUAL.Please see picture below for more information If you still have any question. Please feel free to email me.

Buyer MUST contact me within 24 hours after auction ended with FULL MAILING address.Have a happy bidding, GOODLUCK TO AL L Speed, Depth And EL EQ The pedal sounds really nice, Dont notice the level having a lot of effect except when turned all the way up. We will post pics for inspection. The pedal operates on AC with an adapter or will run on 9 volt battery. This auction DOES NOT include adapter. The pedal has two output jacks for stereo or mono sound. Take a look at pics and we welcome any questions you may have.It looks like USPS is discontinuing Parcel Post. Or it is called Standard Post. Thanks! Thanks for looking! We have a new 5.000 square foot store.I am not an expert in all things so please ask specific questions about the item before bidding. I am located in Ponca City.
