Unfortunately for Dremel model 595 it is discontinued. We have no replacement information for it. You will need to reach out to Dremel directly for a substitution part number. Please feel free to get back in touch with us if they provide you with one. Thank you! We do not offer the manual for your model 395 type 4. I apologize for the inconvenience. No, the switch has been discontinued for your model and is no longer available. We have no known replacement information in our system. We recommend you contact the manufacturer of the part to see if they have recently released a new substitute. We do carry related parts for units just like yours. For example, part number 2615294309. Good luck with your repair. You should be okay ordering the 2615294888 on off switch. WJA The rear bearing on the old part is too small. Since it was opened anyway, I proceeded to finish disassembling. I took the old switch and sprayed carburetor cleaner through it before reassembling. I also had trouble figuring out how to reassemble the brushes but there was an online article on how to do it. The reassembled tool works and the switch has returned to being variable speed. Lesson learned take apart your old switch and clean it before buying a new one. The Type 2 Moto Tool does NOT take this 2615294888 part and is apparently not available anymore.
