# Drivers Instructor Manual

We've taken steps to ensure your safety. There are many benefits to choosing manual lessons, such as having more control, the ability to drive a wide range of makes and models that only come with manual transmission, and, in some cases, greater fuel efficiency. That means that choosing to learn to drive a manual will give you more options when buying or renting a vehicle. Another benefit to getting your manual licence is that manual transmission cars tend to be cheaper than the automatic version of the same make, and, as the mechanism is less complicated, they can often be more reliable. Lastly, if you're planning to do a lot of driving in icy or snowy conditions, then a manual car can offer greater control and so perform better when roads are slippery or dangerous. So whether you're learning in Newcastle or Norwich or Plymouth or Preston, we'll find the perfect instructor to help you on your journey to passing. With Independent Driving introduced to the practical driving test today, it's important you still remember the fundamental things you should and shouldn't be doing on your driving lessons and driving test! With daffodils blooming and the sun beginning to warm up those once chilly afternoons, you may be thinking ahead to those summer holidays and camping trips with friends. Get Started Welcome to Manual Driving School in Melbourne Drive Manual in 1 Super Lesson We are the only school in Melbourne that offers this. What takes another instructor five to ten lessons, we will accomplish this plus more in our 1 Super Lesson. Most of the time we get corporates wanting us to teach their employees how to drive manual. We do one of these almost on a daily basis with monotoneous regularity. It's in being able to find out how to tweek you the driver's physiology and demonstrate very easily so that you can understand how to drive a manual vehicle using pictures and implimenting muscle memory and brain recognition. What takes other instructors five or ten lessons and a lot of your time, we are the ONLY SCHOOL IN MELBOURNE that offers this Intensive Super Lesson.

New learner driver Why is it that you go from being one of the safest drivers on the road to an 1100% DANGER STATISTIC according to VicRoads and Monash University. Under supervision, you have a backup with your senior driver. When you are on your own, different story. Unfortunately parents don't know how to teach or more importantly correct driving impediments from the start, and what's even more unfortunate is that there are a lot of DRIVING INSTRUCTORS who don't know either. So, where does this leave you, the new driver. You need to spend a lot of time searching for the small percentage of quality instructors with great difficulty. The big names nor the so called "Biggest Schools" have the answers either. It's being able to detect and then correct these faults which you could carry with you for the rest of your driving days, IF NOT CORRECTED unfortunately could cause serious accidents. We know how to make these subtle and yet critical changes in your driving. Terrified nervous driver Oh, we specialize in this one and welcome this type of driver as it is the most satisfying to be able to teach. The biggest thing is that this type of student inherently knows their capabilities and this will shut them down even though they are trying very hard. After all we are born with only two fears. Fear of noise and the fear of falling. Both of these fears are realized when it comes to driving. The fight or flight mechanism kicks in, and in turn, two chemicals are released into the brain Adrenaline and Cortisol which can make you excel or in this case, shut you down and go into FREEZE MODE which is deadly for driving. Knowing how to correct this and bring rationality to the situation very quickly is most important. I've done this hundreds and hundreds of students. Nothing is new to me. You can be THE ABSOLUTE WORST and I WILL HELP YOU very quickly. What to get through your Ps From the moment you get on board we make the teaching and your ability to learn as simple as ABC.

<https://ayurvedia.ch/e63-manual-format>

From there we constantly repeat, reinstate and keep reinforcing what you've learnt so that it becomes second nature, infact instinctive in nature. We know from simple learning abilities, the louder, the brighter and the more obvious the teaching is, your ability to grasp the new ideas is made much simpler. It's literally neuroplasticity. Your ability to understand and adhere to road rules easily is most important, including your lowspeed maneuvers, namely parking. We will show you in 3 steps how to park with pinpoint accuracy alleviating a major stress issue for your driving test. She is a multiple state and national champion in motor vehicle racing and is a true expert when it comes to instructing students on the sweet science of manual car driving. With a true understanding of the dangers of unsafe driving on Melbourne roads, her focus is not only on teaching drivers how to use a manual car safely but more importantly to be safe on the roads abiding all road rules and avoiding dangers with early anticipation of potential hazards on our roads. Delivering training in the western suburbs on roads which range from 40km up to 80km, Lauren emphasises her training on vehicle control sustainable to adapt to the rigorous roads of the west and the safe driving sequences necessary to keep safe at higher speeds. Her clients love her and her first time test pass rate is amazing in the Werribee and Melton Vicroads centres. Lauren was also chosen from AAMI insurance in 2016 to take part in a monumental case study concerning learner drivers and how they will cope using a digital logbook which was a great success. The initial stages of passing the knowledge and the hazardous test went through smoothly with the drive test appearing to be a big hurdle to cross, stood our way.

This is the time,I started surfing the net, to study, what all schools had to offer and I finally decided to home on to Lauren from the Master driving school. Right from my initial interaction with her, till the driving test, I found her thoroughly professional, knowing her job responsibility and dedicated to the core. She was methodical and had immense patience to answer to queries. She was assertive when it came to emphasising the important issues related to safe driving on the roads, as well as, defining critical areas from the test point of view. Had it not been for Lauren, driving on Melbourne roads with confidence that we do now, in such a short period of time, would not have looked as easy as they do now. In short, if you are looking at a sure shot success in your drive test just look for Lauren in Master driving school and you will thank your stars that you bumped into her to attempt the drive test in Vicroads. I wish her all success in her endeavour and hope she prospers leaps and bounds in her career. Passing my manual driving test was a breeze as every lesson was paced appropriately and set me up for success. I enjoyed every lesson and I highly recommend choosing
