Bookmark the permalink. Bottle with Extension Nozzle 35250 Very Cheap To find out more, including how to control cookies, see here. Regards Johngee10 Hold down the power button on the computer for 10 seconds. Open the computer tower, remove memory modules, reconnect power cable and turn on the computer. If you get a beeping sound after turning on you should be getting beeping sound suggesting the mother board is not bad. Turn on the computer and disconnect power cable from computer. <http://www.djvandinho.com/userfiles/crown-xti-manual.xml>

- **ds-1400c manual, ds-1400c manual.**

Reseat 1 memory at a time if you have 2 memory module or if single memory module reseat in different memory slot, swap memory module. Reconnect the power cable and turn on the computer if it boots to desktop possible issue with 1 of the memory module. Disconnect the harddrive ide cable from the harddrive. Turn on the computer. If still unable to power on. Shutdown the computer and disconnect power cable. Remove video card, sound card, modem card if any. Connect just the vga cable from monitor to the integrated video port. Connect power cable and turn on the computer. If computer turns on possible issue with one of PCI or PCI express card. If still unable to power on. Disconnect the power connector pin from the motherboard and reconnect it back. Turn on the computer check power power led on motherboard, also check if the processor fan is spinning. I will get working on it tonight. Well see how it goes. Login to post If you do not find the answer, call Fellowes. Fellowes Shredder Manuals Use all 4 wires and diode isolate each together. This will control door lock, unlock, arm, disarm, dome light supervision and more. A toggle switch under the deck is the SafeSense override switch. The override switch deactivates the SafeSense feature so that you may clear a paper jam. When the switch is in the override left position, the SafeSense yellow light will flash and the SafeSense feature will not function. Once the paper is cleared, reset the SafeSense override switch to the right position. The SafeSense yellow light turns on when you touch or are too close to the paper insert opening. Row 2 712. Row 3 1318. Row 4 1922 Starter Yellow Ignition Switch Harness. Door Trigger Yellow Drivers Kick Panel see notes Fuse box has some fuses missing. The fuse box does not have a description on every plug of what it is. Any help would be great

thank you Where can I get one in Henry County Georgia or would it be easier to just buy another paper shredder Looking to get a gear for a Fellowes
