Buy now! You may download a digital version of your owners manual, but remember to contact Ducati Service at all time to service your motorcycle. Gearchange pedal 24 Adjusting the position of the gearchange pedal 25 Adjusting the position of the rear brake pedal 26. Main components and devices 27. E General indications 6. Warranty 6 Symbols 6 Useful road safety information 7 Riding with a full load 8 Identification data 9. Brakes 75 Transmission 76 Frame 76 Wheels 77 Tyres 77 Suspension 77 Exhaust system 78 Available colours 78 Electrical system 78 The information in this manual will help ensure that your riding experience is troublefree and enjoyable, the warranty will be automatically invalidated. Warning. Read this section before riding your motorcycle. Many accidents are the result of the inexperience of the rider. Always make sure you have your licence with you; you need a valid licence that entitles you to ride a motorcycle. Your motorcycle is designed for travelling over long distances with a full load in complete safety. Even weight distribution is critical for maintaining safety standards, and to avoid getting into difficulties when making sudden manoeuvres or riding on bumpy roads. These numbers indicate the motorcycle model, and should be quoted when ordering spare parts. fig. 1 This section shows the position and function of the controls used to drive the motorcycle. Be sure to read this information carefully before you use the controls. Illuminates when the high beam headlight is on. 2 Turn signal warning light green. Flashes when a turn signal is on. 3 Low fuel warning light yellow. Comes on when the engine is locked. Indicates road speed. <http://fine-trading-knotwork.com/uploads/dave-manual.xml>

- **ducati s4r service manual, monster s4r service manual, ducati monster s4rs service manual, ducati s4rs workshop manual, ducati monster s4r owner s manual, ducati monster s4rs workshop manual, ducati monster s4r workshop manual pdf, 2005 ducati s4r service manual, ducati s4rs owners manual, ducati s4rs owners manual pdf, ducati s4rs owners manual free, ducati s4rs owners manual download, ducati s4rs owners manual 2017, 2007 ducati monster s4rs owners manual.**

The owner receives a set of keys, comprising 1 key A RED The red key is a service tool and is part of the motorcycles immobilizer system. The three keys have a small tag 1 attached, which shows their identification number. Warning. Keep the keys separate, and store the tag 1 and key A in a safe place. It is also advisable to use only one of the black keys to start the motorcycle. If the engine still does not start, try using another black key. This is located in front of the fuel tank and has four positions A B C D ON enables lights and engine operation; OFF disables lights and engine operation; LOCK the steering is locked; P sidelight and steering lock. Turn the knob clockwise to move the lever away from twistgrip, or counter clockwise to move it closer. Before using these controls, read the instructions on page 44. fig. 13. Push down on the pedal 1 with your foot to operate the rear brake. The system is controlled hydraulically. Gearchange pedal fig. 15 To adjust the position, proceed as follows Apply a wrench to the flats 2 to hold the tierod 1 and loosen the lock nuts 3 and 4. The position of the rear brake pedal in relation to the footrests can be adjusted to suit the preferred riding position. To adjust the position of the rear brake pedal, proceed as follows Loosen the locknut 5. Front fork adjusters. Tank support strut. Seat cover Fuel tank release lever. Catalytic converter. Opening Raise the cover 1 and insert the key into the lock. Lift the cap. Opening Insert the key in the lock and turn it clockwise to release the seat from the frame. Pull the seat backwards to

release it from the front catches. Do not sit on the motorcycle when it is supported on the sidestand. The rear shock absorber has external adjusters that enable you to adjust your motorcycle suspension to suit the load conditions. Use a pin wrench to turn the preload adjusting nut. <http://www.studiolegalecatapano.it/studiolegalecatapano/immagini/userfiles/dave-moulton-golden-ears-manual.xml>

Take special care when turning the nut, to avoid injuring your hand by striking it violently against other parts of the motorcycle if the wrench suddenly slips off the nut while turning. The front forks can be adjusted for both rebound damping and compression damping. Adjust both fork legs to same setting. To change the spring preload for each fork leg, turn the adjuster 2 with a 22 mm hex spanner. Adjust both fork legs to same setting. The standard ride height setting is the result of tests carried out in a wide variety of conditions by our technical staff. Keeping to the running in recommendations will ensure longer engine life and reduce the need for overhauls and retuning. If there are any faults or malfunctions, do not start the motorcycle and contact your DUCATI Dealer or Authorized Service Centre. Before starting the engine, familiarise yourself with the controls you will need to use when riding. Never start or run the engine in enclosed space. This model features servoassisted starting. Press and immediately release the start button 2 to use the servoassisted engine starting function. Reduce speed, change down and release the throttle twistgrip. Change down to engage first gear and then neutral. Apply the brakes and bring the motorcycle to a complete stop. To switch the engine off, simply turn the key to OFF. Stop and park the motorcycle on the side stand see page 30. To avoid theft, turn the handlebar fully left and block it by pushing in the ignition key and turning it to the LOCK position. The following accessories are stowed under the seat use and maintenance manual; helmet fastening cable; toolkit for routine maintenance operations and checks. Removing the headlight shell Unscrew and remove the two bolts 1 securing the headlight shell to the headlight support. Notes. Be careful not to lose the nuts for the bolts 1 located on the inside of the headlight shell. Remove the seat page 29, release the catch 1, fig. 43. Lift fuel tank and release service rod 2, fig.

44 from beneath the seat; Rest the tank on the support strut. To replace the tank, perform the above operations in the reverse order. To access the airbox, lift the fuel tank as described in page 49. Check the coolant level in the expansion tank on the righthand side of the motorcycle; it must be between the MAX and MIN marks on the tank. If the level is low, top it up. Contact a Ducati Dealer or Authorized Service Centre to have the system inspected and the air bled from the system. Warning Have the brake pads replaced at a Ducati Dealer or Authorized Service Centre. Adjusting the throttle cable. To prevent problems, periodically lubricate the ends of each control cable with SHELL Advance Grease or Retinax LX2. Before charging the battery, it is best to remove it from the motorcycle. Release the retaining clamp 1 and remove the battery. Move the motorcycle slowly until you find the point at which the upper section of the chain is most taut. Place the motorcycle on its sidestand. Push the chain upwards with a finger in correspondence with the centre of the swingarm see adhesive label. Notes. Do not touch the transparent part of the bulb with your fingers, this will darken it and cause a loss of brightness. The bulb has a bayonet type base to remove it, push it in and turn it counterclockwise. Push in the new bulb and turn it clockwise until it clicks into place. To check the headlight aim, place the motorcycle upright with the tyres inflated to the correct pressure and one person sitting astride the motorcycle. Important. Do not remove or alter the position of the wheel balancing weights. Notes. If tyres need changing, contact a Ducati Dealer or Authorized Service Centre to make sure wheels are removed and refitted correctly. It should not be less than 2 mm, and in any case not less than the legal limit. Important. Check the engine oil level through the sight glass 1 on the righthand crankcase cover.

When checking oil level, the motorcycle should be upright and the engine cold. The oil level should be between the marks next to the sight glass. Also check the central electrode; if it is worn or

glazed, renew the spark plug. To preserve the original shine on metal surfaces and paintwork, wash and clean your motorcycle at regular intervals depending on the type of use and according to the particular road conditions. Use specific products, where possible biodegradable. Weights Dry weight 177 kg. Fully laden 390 kg. Failure to observe weight limits could result in poor handling and impair the performance of your motorcycle, and could result in loss of control. Important. Please contact a Ducati Dealer or Authorized Service Centre. To replace the rear sprocket, contact a Ducati Dealer or Authorized Service Centre. Suspension. Front Upsidedown hydraulic forks. Equipped with catalytic converter in compliance with Euro 3 emission regulations. USA model not catalyzed. Available colours. Electrical system. To access the fuses, remove the cover 1, fig. 68, which shows the positions and amp ratings of the fuses. The fuse located nearest to the battery protects the electronic regulator. Remove the protective cap 2, fig. 68 to access the fuse. The electrical system wiring diagram is at the end of this manual. Otherwise, the owner may become subject to penalties under state and local ordinances. The points given below are applicable for every day motorcycle use and should be carefully observed for safe and effective vehicle operation. Do not smoke or allow open flames or sparks when refuelling or servicing the fuel system. Always close the fuel petcock when the engine is prevent flooding of the throttle body. Do not overfill fuel tank see instructions page 45. Motorcycle exhaust contains poisonous carbon monoxide gas. In the event of fuel system malfunction, contact Ducatis authorized Service Centres. The owner is responsible for the performance of all required maintenance.

Such maintenance may be performed at a service establishment or by any individual. The warranty period begins on the date the motorcycle is delivered to an ultimate purchaser. Km 1,000 mi 600 7,500 15,000 22,500 30,000 37,500 Ducati Service Name Mileage Date. Replacing your spark plugs is a very simple task and should be done regularly.
