We have been awarded USA SGS certificate and China Excellent Brand. AEBO packing,neutral and your customized packagings are all available.I do not find 970 models but do find 790 models. If it is a 790 model there can be aproblem with the door lock on the oven door. I would recommend that you review the installation instructions in the owners manual, paying particular attention to the removal of shipping materials. Aditttionally if the problem presists it says to replace the Electronic Range Control ERC This is not a cheap part. Good thing it will be at their expense including the repair service call. Hopefully you have already called for warranty service. We both know a brand new oven should not be producing any error codes. If you have not called for warranty service you do so now. Make sure to tell them that you already have talked to customer support and that unplugging the unit for ANY period of time made no difference in the error code. Thanks for choosing FixYa. Using the Illustration 1 Item No.Each part in the illustration is numbered. When there is a circled KEY No.When the part is partially changed for the purpose of modifi cation, etc., this design change digit may be changed. These changes are informed as Technical Information. Read it with care.Example R8A1001 Design change digit 3 DESCRIPTION Clearly specify this Description when ordering parts. 4 QTY The number of parts used in the section illustrated. The model name is mentioned only when the part is exclusively designed for a certain model. Not interchangeable when used as a single item. Example SET8, 9, 12 Parts of the KEY No. 8, 9 and 12 are interchangeable when used as a set. Due to the design change, etc. For such a small machine it offers a truly outstanding performance with Planamelt R adhesive. The new Planamelt R is a hybrid polymer glue which behaves like EVA and yet offers 95% of the binding strength of PUR polyurethane reactive glue. The design of the DB290 incorporates a simple clear operating panel and LED, for single operator use.In auto mode, the full benefits of the DB290 can be realised through the automation of the clamping, release, nipping and binding functions with minimal operator intervention and maximum productivity. WarmUp The DB290 has a quick warmup time of around 2025 minutes, with a display on the LED indicating the status of the glue warmup time eg from Cold01 to Warm10 and finally Hot20. When ready to use again, simply release it from standby at the touch of a button and within 5 to 8 minutes it will be ready.

During initial warmup or after standby, once the glue temperature has reached the ideal operating temperature, the DB290 automatically performs a self test, stirring the glue in preparation for operation, at which point the LED will indicate Ready. This System is configured to meet the ever changing demands of todays digital printer and is designed to take printed output from multiple sources. Duplo has bundled the features of the big booklet makers into this uniquely compact system. Why Buy The 150 Digital System is an extremely compact, modular system combining sheet feeder, bookletmaker and trimmer. It provides features such as job integrity for confidence that production is correct, fast operation and two feed trays to allow the merging of differently finished stocks. Being a modular system, Duplo has a range of alternative feeding and finishing devices that provide the business owner with the opportunity to upgrade or change devices as needs change and business develops. The system can finish up to 2400 books per hour without operator intervention or any wastage. Moreover the feed trays on the DSF2200 can be utilised in five different ways for optimum efficiency. It is the perfect solution for fully automatic collating and booklet making. This system is extremely userfriendly and is ideal for processing low to mid volume jobs effectively and efficiently. It is designed to meet the challenges of todays offset and digital printer. This userfriendly system can be operated by anyone.

As with all of Duplos bookletmakers this system can be customised according to the end users needs, allowing them to configure and expand as their demands change. The operator can set up a job in four simple steps. Overall the 150C Booklet System is an extremely userfriendly bookletmaker which requires very little training. It features the DFC100 collator and the DBM150 Bookletmaker and Trimmer. This is Duplos most cost effective solution. The DBM150 is Duploas entry level bookletmaker designed for low to mid volume production. The 150Fr Booklet System is the most userfriendly system available in the market today. Duplo systems grow with the business, should production volumes increase, the 150Fr Booklet System can be upgraded thanks to its modular design. The 150 bookletmaker and trimmer features a state of the art control panel which is very simple and easy to use. Overall the 150C Booklet System is an extremely userfriendly bookletmaker which requires very little training. The squareback can also be be used as a stand alone unit simply hand feeding booklets. The blade does wear out and needs to be replaced to maintain the best notching. Includes two brushes. Includes two brushes.To fit a DBM 120 booklet maker. Tool for moving staple clenchers on DBM 120 booklet makers. For more info phone 01908 563149.Includes 1 staple head.It supersedes the DBM120 model and is equipped with Duplos superior engineering within a compact footprint that is 13% smaller. Ideal if space is limited. It can produce finish documents either sheet by sheet or set by set. The DBM150 is designed to meet the challenges of todays offset and digital printer. Duplo has bundled the features of the big bookletmakers into this uniquely compact system. Its small footprint makes it easy to use in places with limited space. The DBM150 and DBM150T is the ideal companion for low to mid volume users such as Quick printers, Copy shops, Inplants and Digital printers.

Should the requirements of the businesses change, the modularity of the system makes it very easy to upgrade. The operator can set up a job in four simple steps. Everyone can operate the DBM150 as it requires little training. It is the most userfriendly bookletmaker in its class! Genuine Duplo Sold per box 3x 5000 cartridge per box.Bottom Knife 362 x 36 x 15mm. Bottom Knife 362 x 36 x 15mm. Staple drivers to fit Duplo DBM 50 Booklet Maker. Includes 2 staple drivers.Includes 2 staple drivers.Very easy to change. Includes 1 head and 1 staple driver.Includes 1 clutch for feed drive.The 616 PRO also comes with a PDF library containing numerous artwork templates. Designed to remove printed borders and prevent toner cracking on digital color documents, this compact allinone finisher can process up to 6 slits, 25 cuts, 20 creases and 2 perforations in a single pass bringing efficiency and automation to print finishing. Offering fully automatic setup and quick changeovers, the DC616 can finish a wide array of fullbleed digital applications including greeting cards, invitations, brochures, book covers, photos, and business cards normally only possible by using

multiple, separate finishing devices.
