To increase speed press the ff or rev buttons again. Answer questions, earn points and help others. I guess the unit is rather new. I will try next some divx disks see if I get more surprises. Looks like a nice slimline player, however I have my doubts about playing MPEG4 content, but it will be interesting to see what you find. At least it's region free. But then again, I have seen a store selling budget portable CD players cheaper than their chart selling CDs. It also shows that when Bluray and HD DVD players starts becoming readily available, they will need to find a way of drastically cutting the price to even think of competing with DVD as picture quality alone is not suddenly going to make consumers fork out at least 10 times more on a player! It is also incredibly small and has a good software as it reads the discs really fast and does not take much time to "think". You're saying it's Region Free right out of the box Where and when did you get yours and are you sure it played a Region 2 DVD Thanx. I had another Ilo dvd also from walmart that said nothing about MPEG 4 playback but was working on divx files. Sadly it died on me quite fast so I had to return it. Any ideas as to why it's doing this. Any solutions TIA. It shows the file folders and the individual JPG image names but when I select a JPG image and press the PLAY button instead of viewing the images from that point forward in the directory my TV screen just goes blank for several seconds. When the TV screen resumes its file folder display for the inserted CD it has advanced to the last JPG file in the selected folder. The images work fine on my PC and on another brand of DVD player. Any ideas or

comments would be appreciated before I take this unit back to purchase something else. I'd really like to discover the one I have is defective or that I'm missing some magic button press sequence. I found this site while searching for help.<http://chukgoobok.com/files/fckeditor/ddrum-dd1m-module-manual.xml>

We have a DirecTV system RCA and I got the DVD player to work, but there's no sound. I've tried everything I know to do. Can anyone here help me Thanks. We have a DirecTV system RCA and I got the DVD player to work, but there's no sound. I've tried everything I know to do. I'm so glad I found yall there's lots of things i need help with and i can't really comprehend what roxio tells me and none of my burned dvds played on my old dvd player. All I need is a receipt from WalMart does anybody want to send me theirs. I don't know anything about the file types I'm downloading or how to convert them. HELP ME PLEASE cd Since the manufacturer can't be found Then these large companies that won't refund like they always have and NOW refer you to a manufacturer that they KNOW is no longer in business. They are all trying to unload these on the consumer when they know it is dangerous. They keep selling them, then they are liable and better start giving money back and eat their losses, before they get HUGE. So, does anyone know a lawyer that can file a class action on behalf of everyone who has been injured, and everyone who wants their money back because they are afraid to plug them in OR did anyone find a receipt to send me and I'll take mine back. Heck, I'll try it with a scanned copy. We'll just make one for everyone and start standing in line. I'll put it on my list to write the president of walmart cd. Something went wrong. If the DVD you are programming requires a 4 DIGIT REMOTE code, find your DVD brand below and type it into the remote. When programmed correctly, the DVD will now work with your universal remote. Here is the list with ALL of the 4 digit device codes for DVD. Here is the list with ALL of the 4 digit device codes for DVD and BluRay. You can also check the remote programming instructions included in the packaging of your remote or find a YouTube video for your specific model number remote. Your help will be much appreciated! I have a universal remote but cannot find a code that will make the unit work. Would you be able to help. Thanks The 4 digit codes I know aren't working. Thanks! I can't find the correct 4digit code to link them. Thanks! I got it to work the volume and the on and off and the channels pretty much the basics but I can't get it to work the menu and the VCR and DVD player. Can you help me I am trying to find a code for my Digix BD500 I appreciate if you have one Thank you! Can't find any code that works. Any help appreciated. The AKAI model is DVPS7000. So I can watch a DVD What code is it to program laser My tv is LG thanks. My remote is Chunghop RML677. Anyone can help me please Ive searched the web for codes but i didn't get anywhere. Remote broke and can't find proper instructions anywhere online. For the Sansai urcl969 universal remote I bought and what instructions I did find were for similar not same remote. On a Comcast remote. My remote has died after 2.5 years and want to have my Bose CineMate 15 System remote take over I need help. My remote is a GE universal remote. I need to set it up to work on my Sony Bluray player. Yet the flimsy remote dies the first time you drop it on a hard floor and you have to buy a universal remote for it as I did.

Even though both the Laser DVD Player and the URC can be purchased in the same shopping centre, the list of remote control codes that comes with the URC does not list Laser brand at all. Does the Reject Shop "no name" URC have a website with additional codes Model DGBR3D07 I have a Supersonic universal remote control. Thank you. Model CVD2216BLK I've tried the two programming codes listed in the instruction manual and several listed online and I still cannot get my remote programmes for my DVD player. I want to program my Rogers universal remote to control the DVD player as pre these instructions Turn ON the device you wish to control. Find the mode button for the device you wish to program TV, VCR, DVD, etc. Press it once. The button will blink once. Press and hold the SETUP button until the selected mode button blinks twice. Enter the 4digit code for the device. The selected mode button blinks twice. If the mode button shows a single

long blink, the entry is invalid. Try steps 3 and 4 again using a different code if available. Point the remote at the device and press PWR button. The device should turn off. If it does not, repeat steps 3 and 4, using a different code for your device, if available. Could you tell me the code to use in a universal remote control I trying to program a HE Universal remote. It's a besse dvd player 666 Is there anything i need to hold first to get it going No code I have tried works. Please help! I have bought 3 Ge universal remotes and I can't any of them to work. I have the codes and I have tried to auto code search them also.what am I doing wrong.They should work with your GE universal remote. If not, make sure you are following the instructions that came with your GE remote to program your DVD player. CUR We tried those same numbers 456 and 458 because we found them online. It worked fine with the Sylvania remote that came with it.what is wrong with it Can you help Any help would be great! Lost the remote and trying universal one.

We can then give you the proper remote codes. CUR None listed in comments or sheet work. No codes will work. If SONY, check our SONY remote codes page. CUR I have an Andersson without a remote. What do I do please Would be very helpful cheers I am throwing my brand new remote in the trash. It uses 4 codes. Thank you for your help Model BDPS3200. It is the brand name of our DVD! Thank you. I already buy an item but it happens that it doesnt have a KONZERT in it. Where I can find it Can somebody help me I apologize for mistakes in my message cause i'm from croatia and i'm not so good in english What could that be Thanks for your help! I can't paired them. Thanks. And no, 1516 doesn't work I tried all the Samsung 4 digits listed in the article. Do you have any other codes to use Nothing I have tried has worked yet. Original control Rmadp054. I now try to connect with An universal Grundig remote but the codes above aren't working. I have a Toshiba BDX1500 the broken remote is called "SER0448" Any ideas of what code I can try. I have tried heaps. Let us know the info and we can supply you with remote codes to work with your setup. CUR If you can use a 5 digit try using 11516 as that is a Universal code for all Sony BDP. CUR Are there other codes These should work great. Let us know if they work or not. CUR We can supply you with the correct remote code once we have the model number. It illuminates and lights up a pathway to the names of the keys needed for operating each component.

This remote works with over 350 brands, and programming is a breeze. The remot. Its incredibly frustrating when youre ready to watch or remove a movie, but the drawer of your DVD player wont open. Heres how to fix a stuck DVD drawer and rescue your movie. You do not want to risk electrical shock while working with it. It is usually a small hole located underneath the DVD drawer. Push gently and the drawer should open partway. Gently pull the drawer the rest of the way open. Most DVD player drawers get stuck when a DVD is warped or the label is starting to peel. If the DVD is warped, discard it. If the label is peeling, remove the label. If it gets stuck again on a different DVD, then the problem may be with your DVD player rather than with your DVDs. If you notice a peeling label or a warped DVD ahead of time, it will save you time in troubleshooting later. Check the manufacturers Web site for your particular DVD player. Sometimes they will have a troubleshooting page with hints and tricks for common DVD player problems. You can also try unplugging your DVD player and waiting a few minutes. Then plug it back in and see if the drawer will open. If you open up your DVD player, you risk voiding your warranty. If you do not plan on getting it fixed and just want to retrieve your DVD, then you could take it apart gently and discard all parts. Have ever stuck with multiple remotes to control multiple devices in your home thater gear, RCA universal remote is perfect for getting rid of multiple remotes and having to find misplaced remotes.

Universal Remote Control Code List For RCA Remote Controls you can quickly program your RCA remote, for this we are going to use Automated code search method.Roku Code 52371,53061 Before you start make sure your remote has working battries, all your devices are switched on. Make sure you have plugged your devices, this will save you a ton of time. Make sure battries are woring in the remote. Steps to setup RCA Universal remote Codes Turn on home theater gear components or devices like tv, bluray that you want to set up with RCA Universal remote. Make sure battries are woring in the remote. Turn on home theater gear components or devices like tv, bluray that you want to set up with RCA Universal remote. Press and release the button that corresponds with the component that you're setting up. To program the remote to control the TV, hit and release the TV button. Then it should turn back on it self. It should remain on. Now, press and release the play button on the remote. If the component that you're programming does not turn off after 5 seconds, continue to hit the play button every five seconds until the component turns off. Now press and release the reverse button. Wait to see if the component turns back on, and press it every few seconds until it does. Press and release the stop button to save the programming for the device in the remote's memory. Repeat all the setps for each device you want to program. There is an unfortunate chance auto code search may not work, we can use direct code entry method to handle the situation. RCA Universal remote setup using Direct Code Entry Method Make sure battries are woring in the remote. Turn on home theater gear components or devices like tv, bluray that you want to set up with RCA Universal remote. Press and release the button that corresponds with the component that you're setting up. Enter your 4 digit code from the list, To program the remote to control the TV, hit and release the TV button.

Then it should turn back on it self. It should remain on. Now, press and release the play button on the remote. If the component that you're programming does not turn off after 5 seconds, continue to hit the play button every five seconds until the component turns off. Now press and release the reverse button. Wait to see if the component turns back on, and press it every few seconds until it does. Press and release the stop button to save the programming for the device in the remote's memory. Repeat all the setps for each device you want to program.
