8 Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus including amplifiers that produce heat. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. Servicing is required when the apparatus has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped. 15 To reduce the risk of fire or electric shock, do not expose this device to rain, moisture, dripping, or splashing, and no objects filled with liquids, such as vases, shall be placed on it. 16 An apparatus with a threeprong, groundingtype plug is a Class I apparatus, which needs to be grounded to prevent possible electric shock. Make sure that you connect this Class I device to a groundingtype, threeprong outlet. 17 The wall plug is the disconnecting device. The plug must remain readily operable. 18 Batteries should not be exposed to excessive heat such as sunshine, fire, or the like. Caution Danger of explosion if the battery is incorrectly replaced. Replace only with the same or equivalent type. Warning This product employs a laser system. To ensure correct use of this product, read this owner's manual carefully and retain it for future reference. Should you require maintenance, contact qualified service personnel. Making adjustments to controls or performing procedures other than those specified herein may result in hazardous radiation exposure. To prevent direct exposure to the laser beam, do not try to open the enclosure. Visible laser radiation when open.

About the symbol The symbol may appear on your TV display during operation and indicates that the function is not permitted by your player or specific media. Pre-recorded DVDs are automatically set to these standards. Our company has no right to grant such permission. Permission should always be sought from the copyright owner. Regional code Your player has a regional code 1 printed on the back of the case. Your player can play only DVDs labeled with the same regional code 1 or ALL. Use of this copyright protection technology must be authorized by Macrovision, and is intended for home and other limited viewing uses only unless otherwise authorized by Macrovision. Reverse engineering or disassembly is prohibited. Manufactured under license from Dolby Laboratories. "Dolby" and the double D symbol are trademarks of Dolby Laboratories. If this is the case, remove the disc and leave it on for two or three hours. That will allow the player to warm up and evaporate any moisture. If you leave the player plugged in, moisture condensation will seldom occur. Press repeatedly to step through the fast reverse speeds. 6 Left arrow Up arrow Right arrow Down arrow Press to select menu options or adjust settings. 7 OK Press to make or confirm menu selections. 8 DVD MENU Press to open the DVD menu. 9 AUD IO Press to select an audio language or audio channel. 10 SUBTITLE Press to select a subtitle language, if available. 11 REPEAT Press during playback to step through repeat options, including repeat current chapter, repeat current title, repeat entire disc, and off. 12 RESOLUTION Press to change the vertical resolution. 13 AB Press once to set the start of a repeat loop. Press again to set the end of the repeat loop and start repeat playback. Playback begins from this point when you press PLAY. Press again to pause playback. Press once more to resume playback. Input numbers by pressing the numeric buttons.

In DVD mode, input Title and Chapter numbers. In CD mode, input track numbers. Press **CANCEL** to delete the number you just input. Select **CLEAR** and press **OK** to delete the entire playlist. Select **PLAY** and press **OK** to start program playback. **25 DISPLAY** Press to open the onscreen display, which provides current status information and where you can change settings and options. **26 ANGLE** Press to step through alternate angles to watch DVD playback, if available. If the batteries leak, clean the battery compartment with a cloth. **HDMI output** Use this output for HD conversion and experience stunning HD images and crisp digital audio. Connect yellow video to yellow, red audio right to red, and white audio left to white. Connect yellow Y to yellow, blue Pb or Cb to blue, and green Pr or Cr to green. Audio cable connectors are color coded. Connect red audio right to red and white audio left to white. Component cable Stereo system TV DVD player HDMI cable TV DVD player Digital optical or digital coaxial cable Component cable connectors are color coded. Connect yellow Y to yellow, blue Pb or Cb to blue, and green Pr or Cr to green. Insert the AC cord plug into a standard 120 V 60 Hz polarized AC outlet. If you cause a static discharge when touching your player and your player fails to function, unplug your player from the AC outlet and plug it back in. Your player should return to normal operation. The plug will only fit into matching polarized power outlets. This is a safety feature to reduce the possibility of electric shock. If the plug will not fit in your power outlets, you probably have outdated, nonpolarized outlets which should be changed by a qualified, licensed electrician. Use the attached power cord only. Playback starts automatically. Each time the fast forward button is pressed, the fast forward motion speed changes. Note The symbol may appear on your TV display during playback.

This symbol indicates that the function you selected is not permitted by your player or specific media. **Playback options** Remote control functions The following functions are applicable only to DVD discs. Press it a second time to cancel the search function. Press twice to repeat a Title. Press three times to repeat All. The selected section will be repeated. Press a third time to cancel. Options include 480i, 480p, 720p, 1080i, 1080p, and Auto. Note Setting a resolution on your TV cannot support could result in an unstable picture or a loss of picture. **JPEG disc playback** When playing a JPEG disc, a navigation menu is displayed automatically. In the menu, press Up or Down to select a file, then press **OK**. These operations are allowed only when a picture is being displayed normally and will be cancelled automatically when a new picture is displayed. The General Setup Page opens. **2** Press the Up, Down, Left, or Right buttons to move the cursor and highlight a selection, then press **OK** to confirm your selection. Unlike the resume function, the playback memory function is effective even if the DVD is removed from the player. **3** Press Left to return to the previous menu. **4** Press **SETUP** to exit the onscreen menus. The General Setup Page opens. **2** Press the Left, or Right buttons to select Audio. The Audio Setup Page opens. **3** Press the Up, Down, Left, or Right buttons to move the cursor and highlight a selection, then press **OK** to confirm your selection. This DVD player produces two kinds of audio output, Bitstream or PCM. When in PCM mode, all the audio signals through HDMI are output in PCM format. This setting lets you dynamically lower the volume and still keep the original tone quality. This is the range, measured in decibels dB, between the loudest and the quietest sound registers in a soundtrack. **4** Press Left to return to the previous menu. **5** Press **SETUP** to exit the onscreen menus. To use the Video Setup Page **1** Press **SETUP**.

The General Setup Page opens. **2** Press the Left, or Right buttons to select Video. The Video Setup Page opens. In such cases, the DVD titles will always appear on the screen in their original format, regardless of which TV display format you select. **4** Press Left to return to the previous menu. **5** Press **SETUP** to exit the onscreen menus. To use the Preferences Setup Page **1** Press **SETUP**. The General Setup Page opens. The Preferences Setup Page opens. **3** Press the Up, Down, Left, or Right buttons to move the cursor and highlight a selection, then press **OK** to confirm your selection. These classes help to control the types of DVDs that the family watches. There are up to eight censorship classes for DVDs. Type six numerals as the new password. Be sure r

remember the new password. When setting the parental control function you must input the new password. Hold the disc by the edges so that fingerprints do not get on the surface. Never stick paper or tape on the disc. Storing discs After playing, store the disc in its case. Do not expose the disc to direct sunlight or sources of heat and never leave it in a parked car exposed to direct sunlight. Symptom Solution No power Make sure that the DVD player is plugged in and that the AC power connection is secure. Before playing, clean the disc with a clean cloth. Wipe the disc from the center out. Do not use strong solvents such as alcohol, benzine, thinner, commercially available cleaners, or antistatic spray intended for older vinyl records. Note Never operate this player immediately after moving it from a cold location to a warm location. Leave it for two or three hours without operating it. If you use this product in such a situation, it may damage discs or internal parts. This should reset your player.

Operation of this product is subject to the following two conditions 1 this device may not cause harmful interference, and 2 this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply within the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. FCC warning Changes or modifications not expressly approved by the party responsible for compliance with the FCC Rules could void the user's authority to operate this equipment. Notices Specifications and features are subject to change without notice or obligation. For service and support call 800 3052204. This Product must be purchased from an authorized dealer of Dynex brand products and packaged with this warranty statement. This warranty does not cover refurbished Product. If you notify Dynex during the Warranty Period of a defect covered by this warranty that requires service, terms of this warranty apply. How long does the coverage last. The Warranty Period lasts for 90 days from the date you purchased the Product. The purchase date is printed on the receipt you received with the product. What does this warranty cover.

During the Warranty Period, if the original manufacture of the material or workmanship of the Product is determined to be defective by an authorized Dynex repair center or store personnel, Dynex will at its sole option 1 repair the Product with new or rebuilt parts; or 2 replace the Product at no charge with new or rebuilt comparable products or parts. Products and parts replaced under this warranty become the property of Dynex and are not returned to you. If service of Products and parts are required after the Warranty Period expires, you must pay all labor and parts charges. This warranty lasts as long as you own your Dynex Product during the Warranty Period. Warranty coverage terminates if you sell or otherwise transfer the Product. How to obtain warranty service. If you purchased the Product at a retail store location, take your original receipt and the Product to the store you purchased it from. Make sure that you place the Product in its original packaging or packaging that provides the same amount of protection as the original packaging. If you purchased the Product from an online web site, mail your original receipt and the Product to the address listed on the web site. Make sure that you put the Product in its original packaging or packaging that provides the same amount of protection as the original packaging. To obtain inhome warranty service for a television with a screen 25 inches or larger, call 1888BESTBUY. Call agents will diagnose and correct the issue over the phone or will have an Dynex approved repair person dispatched to your home. Where is the warranty valid. What does the warranty not cover. DYNEX is a trademark of Best Buy Enterprise Services, Inc. Registered in some countries. All other products and brand names are trademarks of their respective owners. DYNEX is a trademark of Best Buy Enterprise Services, Inc.

All other products and brand names are trademarks of their respective owners. We know from our users' experience that most of people do not really attach importance to these manuals. Many instructions, immediately after the purchase, go into the trash along with the box, which is a mistake. Get acquainted with the information concerning the manual for Dynex DXUPDVD2, which will help you to avoid troubles in the future. You will then acquire basic knowledge to maintain Dynex DXUPDVD2 in good operating condition to make it easily reach the intended life cycle. Then you can put away the manual on a shelf and use it again only in a situation where you're not sure whether you perform maintenance of the product appropriately. Proper maintenance is a necessary part of your satisfaction from Dynex DXUPDVD2. Once a year, clean the closet where you keep all your devices manuals and throw out the ones that you don't use. This will help you maintain order in your home base of manuals. A grounding type plug has two blades and a third grounding prong. About the symbol The symbol may appear on your TV display during operation and indicates that the function is not permitted by your player or specific media. Connect yellow Y to yellow, blue Pb or Cb to blue, and green Pr or Cr to green. Insert the AC cord plug into a standard 120 V 60 Hz polarized AC outlet. Press the number buttons to input the program number what you want. When finished, move the cursor to select the Start logo. The General Setup Page opens. 2 Press the Up, Down, Left, or Right buttons to move the cursor and highlight a selection, then press OK to confirm your selection. The General Setup Page opens. 2 Press the Left, or Right buttons to select Audio.
