

## My favorites

There are six subjects this year. In school, my favorite subject is science. I have science classes on Wednesdays and Fridays. In science class, I can study animals and bugs. Sue is my science teacher. She is a good teacher. We go to see bugs in the park. Science class is fun! Do you like science class, too?

I like to do sports. My favorite sport is basketball. I can play basketball, but I cannot play badminton. I play basketball on Mondays and Thursdays. I play basketball with my friends, Tom and Jeff. In summer, we play basketball in back of the school. In winter, we play basketball in the gym. Do you like to play basketball? Let's play basketball together next time.

Winter is my favorite season in a year. I like to ski in winter. I am good at skiing. I go skiing with my mom and dad in December. Lisa is my sister. She likes to go ice-skating, but she doesn't like to ski. She goes ice-skating on Saturdays and Sundays. What sports do you like in winter?
