Casino everum reviews

Everum Casino is an Accredited casino here at Casinomeister, and they've shown themselves to treat players fairly, process withdrawals quickly – and a superb game library offers you thousands of slots and games to play. While their table games section is lacking, they offer slots from almost every developer you could think of – and a great loyalty program ensures regular play is rewarded.

The Everum Casino website looks modern and slick, but you may find the gold and brown colour scheme somewhat underwhelming. In terms of online casino games, it has a broad selection to choose from. With top suppliers like Microgaming, NetEnt, Evolution Gaming, or BetSoft available to players, there is plenty of choice and variety.

Reviews everum casino

Everum Casino accepts all the major currencies and has a significant range of deposit and withdrawal methods, including Bitcoin, Skrill (Neteller), and Yandex Money, which of course, is particularly relevant for Russian players.

Everum Casino is powered by the gaming platform provider Tain, which has offices in Malta and Sweden. The site offers some pretty decent casino bonuses – and it's these casino bonuses we'll be looking at first in this review.

Everum reviews casino

If you're interested in learning about what new players can expect at Everum Casino – this part of our Everum Casino review is going to show you what the site has to offer in terms of a welcome bonus, no-deposit bonus, free spins offers, and we'll also talk about their Loyalty Program.

As a welcome bonus for new players, Everum Casino is doubling first deposits with up to \$100 in bonus money.

Everum casino reviews

This deposit bonus is available for new customers only and all you need is the bonus code: WELCOME. Just enter the code when you sign up and it will activate your welcome bonus.

The first deposit bonus is just one of Everum Casino's promotions, there are plenty more on its promotions page.

Casino everum reviews

The first deposit bonus is available to new customers only; the WELCOME bonus code is required to claim it. Everum's terms and conditions are similar to those seen across many online casinos.

The minimum deposit is \$10 and the maximum bonus the casino will hand out is \$100. Wondering what wagering requirements accompany the bonus? \$100 or \$10... the wagering requirements are the same for the bonus. \$100 deposits are subject to the exact same wagering requirements – and these are 40X, regardless of the bonus amount.

Casino everum reviews

The maximum bet during bonus play is \$3 and the 100% bonus is capped at \$100, so for example a deposit of \$45 means you'll start playing with \$90 in available bonus funds.

Just make sure you don't leave the bonus funds lying idle in your account, as you have 10 days to spend them once they've been credited to your account. The casino counts 50% of bets made on a number of specific games towards the wagering requirements. Check the Everum's terms and conditions page to see which games are affected.

Reviews everum casino

There are also specific conditions related to Everum Casino's slot games. You can use the bonus on any video slots but not progressive jackpots and a number of other specific slot products. Again, check the page for more details.

At the time of writing, we were unable to find any no-deposit bonuses or free spins offered at Everum Casino. However, the site does run regular free spins promotions – where you can win free spins – so be sure to check out their "Promotions" page to learn more about any current free spins promos or other bonuses the casino is running.

Reviews everum casino

Everum Casino has developed its loyalty program by creating Gold Coins.

Earning the coins is simple: you earn one Gold Coin every time you wager €100 on slot games. The progress bar at the top of the page tracks your progress and shows how much more you need to wager to earn the next coin.

Reviews everum casino

Everum Casino holds regular promotions for you to win coins and other loyalty and reward programs. Make sure you keep up-to-date with the latest Everum promotions and special deals.

Promotion terms state that you will earn one Gold Coin each time you wager €100, but if you have an active bonus, only 50% of bets you make are counted towards earning Coins.

Casino reviews everum

A maximum of five Gold Coins per day (GMT) can be earned, exchanging coins for prizes is dependent on the terms of the promotion and they are not redeemable for cash.

There is a wide variety of deposit and withdrawal methods, including standard bank transfer, EcoPayz, Bitcoin, MasterCard, Visa, Skrill/Neteller, QIWI and many others.

Casino reviews everum

Payments and withdrawals are carried out by one of the methods offered in Everum Casino's cashier menu. You can order a withdrawal to a certain payment system but this will only work if you have used that payment system to make your deposit.

Funds can not be exchanged between different payment systems. If you require a particular method of withdrawal the casino can enable it for you at its discretion.

Reviews everum casino

No interest is paid on funds deposited and the maximum monthly withdrawal amount is US\$40,000 (or equivalent if using a different currency). The way this amount is calculated is by the difference between deposits and withdrawals.

Everum Casino management sets both the minimum and maximum amount that can be withdrawn in a single operation. This can differ depending on the withdrawal method, level of funds in the account and other factors. The details for each payment system are presented in the cashier menu.

The min deposit, \$10, should suit the vast majority of players, and with the minimum deposit, \$10, you don't need much to start playing at the casino!

Reviews casino everum

After speaking with the customer support team at Everum Casino, we were pleased to learn that the site aims to process all withdrawal requests within 24 hours. In many scenarios, withdrawals may end up being processed much faster than this – and high withdrawal limits ensure high-rollers shouldn't have any issue getting winnings out of the casino.

With "Play Responsibly" a major message in today's online gambling world, many players are looking to see what information casinos are offering to ensure that harmless entertainment doesn't stop being entertainment and turn into problem gaming.

Everum casino reviews

Everum Casino makes it clear that their games should only be played for entertainment purposes – and they have a number of information portals for those who want to learn more about their responsible gambling tools. They also have some responsible gambling tools which players can use, including deposit limits and self-exclusion. While these responsible gambling measures are required at all online casinos, it's still a positive sign to see the offered at Everum. Writing this review, we were unable to determine whether you can put these limits in yourself, or whether you need to contact support.

Everum's customer support team is available 7 days a week, between the hours of 6AM-11 PM GMT time. They offer a live chat facility and using this live chat facility you'll be able to speak to a support agent in a matter of minutes. What's more, their live chat facility is available on their mobile casino, too, so you can get help and support however you choose to play.

Everum casino reviews

The live chat support team offers support in a number of languages. English is the main language offered at the site, although they do have some gaming agents who can provide limited help in Russian and French.

If you prefer not to use the live chat facility, you can also contact the casino via their email address. They're happy to take questions about slots, bonuses, live poker games – they'll even talk you through how to get started at their site and how you can begin to play your favourite games – and we found the site's support team to be very helpful, friendly and responsive.

Everum casino reviews

Everum Casino is required, by law, to carry out KYC checks on players from time to time. This is something all of the world's best casino sites must adhere to – and, if you're asked to complete a KYC check you'll need to prove your identity.

Everum Casino is available via desktop and mobile. The mobile casino works on all phones and is a pleasure to play when you are on the go with hundreds of available games. While writing this casino review, we found the online casino to be easy-to-use, easy-to-navigate and very user-friendly. It's clear they've put a lot of effort into developing their website to be as easy-to-use as possible, and thanks to a speedy sign-up process you'll be able to join – and begin to play 0 in just a few minutes.

Casino reviews everum

We should point out that the casino does have some restricted countries. Players from restricted countries will not be able to join the casino. For example, players from the United Kingdom (including some United Kingdom overseas territories) won't be able to join. The casino also does not allow players from the United States, Cyprus, France and a number of Asian countries to join. Those located within the United States should check out United States-focused casino pages. Canadian players are accepted at Everum Casino.

Everum Casino has a wide selection of online casino games and categories. The site features all the leading software providers; whether you're into Microgaming, NetEnt, Betsoft or Genii, Elk Studios or Quickspin; they are all available at Everum Casino.

Everum casino reviews

Players can access them via easily recognisable shortcuts on its website: Top Picks, Slots, Table Games, Card Games, Live Games, or Lottery.

A quick glance at the main Everum Casino homepage shows you what kind of video slots are currently proving popular with players – and one of the first games that we saw was Big Time Gaming's Lil' Devil. This game – often called Danger High Voltage 2 – offers two regular bonus rounds, along with two enhanced bonuses and features, both of which are capable of producing wins worth thousands of times your stake.

Reviews casino everum

Push Gaming's Fat Santa is another popular game found at Everum Casino. Everum actually has it ranked as their 7th most popular slot – and this sequel to Fat Rabbit offers an exciting bonus round where it's possible to win as much as 1,000X your stake on every spin!

Play'n Go make an appearance, too. Play'n Go is one of the biggest software providers on the planet – and their hit game, Book of Dead, is available to play at Everum Casino. This insanely popular release from Play'n Go allows you to win as much as 5,000X our stake on every spin – so it's no surprise to see it among the site's top-rated games!

Everum reviews casino

Some of the other notable video slots we saw on Everum Casino's homepage included Fishin' Reels, Matrix, Voodoo, Wixx and Cash Volt. Betsoft games are also very common – and a large number of Betsoft slots can be played at the site.

Everum Casino welcome players looking to enjoy live dealer table games – and they offer live dealer games from three software providers; Evolution Gaming, Lucky Streak, and Ezugi.

Casino reviews everum

Of course, Evolution Gaming is the biggest name on the list here, arguably the biggest name in the live online gambling industry – and they offer a huge selection of games, including multiple variations of Blackjack, Baccarat and Roulette, along with more unusual games, like Casino Hold'em and Monopoly Live.

The live casino games from Lucky Streak are a bit more “conventional”, and they offer what you’d expect at what many players call the best casino; this includes, again, many variations of Blackjack, Baccarat, Roulette and others.

Casino everum reviews

Finally, Ezugi’s offering includes some unusual games. For example, we saw the popular Indian card game Teen Patti on offer, along with some cool live casino games like Bet On Numbers and Andar Bahar Live.

Unfortunately, at this stage of our Everum Casino review, things didn’t get a whole lot better either. No video poker machines were found at casino Everum, and we weren’t able to locate any non-live Baccarat either; Baccarat should really be offered at any top casino, and we’re unsure why Everum Casino doesn’t offer it.

Casino reviews everum

The casino does, however, allow you to play lottery games – and these can be accessed and played from the “Lottery” tab. You need to have an active account in order to be able to sign into this part of the casino Everum website and view the lotto games on offer.

Like with the lack of video poker, there are also no non-live poker games. That means no Caribbean Stud Poker, no Three Card Poker... the casino doesn’t offer any non-live poker games – something we do find disappointing.

Casino everum reviews

We always look at the range of progressive jackpot games when writing a casino review. Everum Casino doesn’t disappoint, and they offer a wide variety of jackpot games for you to enjoy – including, of course, the hit slot from Microgaming, Mega Moolah.

All of the best casino sites we’ve seen offer a wide variety of progressive jackpot slots, and Everum Casino is no different; alongside classic Microgaming titles we also found games like Gem Splash: King’s Court, Diamond King, Better Wilds: Power Play, and Book of Kings. The casino welcome players to browse through their progressive jackpot games from the main homepage; you’ll find them at the bottom, under the “Jackpot Games” tab.
