Czech Republic has introduced a new Gambling Act back in 2017, which governs all online gambling operators who wish to legally target Czech players. Players from Czech Republic can find relevant online casinos on the Czech version on Casino Guru available at kasinoguru-cz.com. Alternatively, there is dedicated website providing an overview of online casinos with the official Czech license available at licencovanakasina.cz.

We are constantly improving our casino database, so that we can help you choose reliable casino sites to play at. Here are some changes from the last 30 days.

Either way, we advise you to read our full review before starting to play at any casino to learn everything you need to know to decide whether it's a good choice for you or not.

Some online casinos also allow players to deposit in cryptocurrencies like Bitcoin, Ethereum, Litecoin and others. You can browse these using the 'Bitcoin/crypto casinos' filter above, or by going to our separate page with the list of best Bitcoin and crypto casinos.

Although casino bonuses are tempting as they give you more money to play with, they are not always the best choice. There are always rules you have to follow when playing with bonus money, which can be quite restrictive and often make it very difficult to actually withdraw money after taking a bonus. We believe that players are sometimes better off playing without a bonus than with it.

Our industry-leading games are made by players, for players. All games are intelligently designed for flawless performance on multiple platforms. Whatever language you need, we've got you covered with multi-lingual support. Our captivating bonus features offer incentives and rewards, with all games jackpot and free spin enabled.

We treasure fair gambling and want to recommend only casinos which share this value. That's why the top positions in this list are reserved for honest online casinos.

It's also crucial for you to use your own personal information and make sure that everything you enter when creating an account is correct and truthful. Casinos always check the identity of players when they want to make their first withdrawal (at latest), so you won't be able to withdraw money from a casino if you use incorrect details.

We are thrilled to introduce our latest engagement tool to you, our Megastar Tournaments.

This page contains a bonus offer next to each of the top online casinos listed above, and you can find each casino's full offer of bonuses in the casino's review.

Our Megastar Tournaments offer complete flexibility. You choose, when, which games, how many games and how often for ultimate player experience and engagement.

The payment methods (bank accounts, cards, internet wallets) you use to deposit money into your casino account should be yours and held in your own name. Using someone else's card, bank account, or wallet can lead to a permanent account closure and can be used as a reason for not paying out winnings.

Bet online casino caught cheating responds

The only exception to this are fake games, which are created to resemble other original games, but with a different set of payouts and probabilities. Fake games are generally used by dishonest online casinos to trick players and increase their profits, but you will not find them at any casino which has a good rating from us. If we discover fake games at a casino during the review process, we decrease the casino's rating and warn our visitors.

The registration and first deposit can be very tiring at some casinos and for players from some countries. This also influences our rating for Germany.

And that is where our list of best online casinos comes in, helping you find and choose a reliable casino site to play at. Here is how you can use this page:

All casino games give the casino a certain statistical advantage (house edge), so you are more likely to lose money than to win. However, if you think that casinos manipulate games to give them an even bigger advantage than the advertised house edge, that's not the case. Casino games are operated by the company which created them, not by the casino itself, so the casino can't influence the outcome of game rounds at all.

If we find a casino on some blacklists, we warn our visitors and consider each of them separately to determine how we should alter our reputation rating.

Available currencies you can play in usually depend on which countries each casino targets. Major currencies like US Dollar, Euro and Pound Sterling are supported in most casinos, but many online gambling sites also support less common ones. To make sure you can gamble in your preferred currency, use the 'Currency' filter above.

Rarestone is the newest addition to the Playtech studios family. Founded by veterans of major players in the industry, this Australian-based studio is built on a passion for developing games with global appeal. Working on the principle that the best game designers are game players, Rarestone focuses on maths-led development to create titles tailored to seasoned players. Key releases from Rarestone include the Fire Blaze series – a suite of ancient culture-themed games all linked by an exciting 'Hold and Respin' feature, offering players a chance to win four in-game jackpots.

A casino can be great for players from one part of the world and terrible for other players. That's why we've created a custom casino ranking relevant for players from Germany, which consists of our evaluation of each casino on a global level, as well as custom factors important for players in Germany.
