Load up and take aim, Slotastic's first ever multiplayer game is one not to miss! Compete against other players online in an underwater battle in the action-packed Fish Catch game. This exciting multiplayer game will take you to the depths of the ocean as you explore four different settings trying to shoot as many fish species as possible to earn the top score.

How many players will you defeat in this thrilling multiplayer game?

Play up to four players at a time in a new gaming adventure that combines online multi-player fun and casino thrills. To begin the game you'll need to choose the denomination of your bet, this will determine the effect that your ammunition has on certain fish. You can choose between five betting/weapon variants. Weapons with a lower bet value cost less but you'll need to use more ammunition to take down your enemy. Another option is to increase your bet amount to use ammunition with greater damage, this will take out your enemies more effectively, but at a cost. As you'll be playing online against other players you'll have to adapt your strategy based on your opponents performance and skill.

Unlike other casino games, the Fish Catch game requires skill and determination to succeed and not random chance. However, Mermaid Luck is on your side in the randomly triggered feature that can pay up to 250 times your bet. Once triggered a wheel of chance will appear on your screen with several winning options, each one offering to multiply your winnings. Experience Fish Catch today at Slotastic on desktop, mobile, and on the Android App! Happy Shooting!

Here are a few practical tips if you want to play fish table games online: 1st- Fine tune your hand-eye coordination. The most vital talent you require in relation to on-line fish skill video games is strong hand-eye coordination. 2nd- Ignore the blockers. It's ordinary wanting to go for the huge fish which provide massive rewards. However, most times, large fish only act as blockers. This indicates you need many bullets to take the fish down. As such, you could waste your entire bullet collection without taking the massive fish down. 3rd- For massive fish – use bigger guns. Small guns cost you less and with big weapons the price is greater (assuming they shoot faster). While that is the case, you ought to not be tempted into using small and slow guns to target huge fish because this could just end up costing you quite a few bullets. If you want to go for huge fish, sharks or mermaids, then be geared up and ready to pay for the extra ammo.
