VIP Preferred is backed by Wells Fargo and is able to give instant withdrawal and deposits. In addition, you can get exclusive member benefits for using their service.

In addition, there are various special features that players can adjust to suit their individual tastes like speed (normal or turbo), graphics quality, and whether they want specialty bets (such as neighbours bets) turned on or off.

Most online sportsbooks make you go into your account and click a few buttons to find your bet history. Golden Nugget has the data quickly accessible right on the main page. Click the "Bet History" button while you're logged in to see all your past bets and organize them in a variety of ways.

One feature that we love about the gaming library is the "i" button since you can find out all the important info about the game before playing it. As you may have guessed, the range of the games is spectacular and every player will be able to find a game to play. Both new players and professional gamblers will find something to suit their style of play. Golden Nugget offers a wide betting range, therefore even high rollers will be pleased with the gaming options.
