Hard Rock's mobile gaming app should provide players all types of slots, table games and video poker options. The app should have a user friendly interface, regularly provide new NJ online casino games, and include Hard Rock's unique branding signature.

This is supposed to be fun but they cheat you out of everything. Blackjack is so rigged that you have to play at 3am just to have decent odds. If you play 3 hands, you can already tell what the house will have just by what cards they give you... also look at your cards they tend to give you just enough to lose by 1 majority of the time but once your balance goes up enough, the house will get 20 or 21 every time. Never seen the house get so many 7 cars 21s off busy cards... please fix this asap, this is not the actual hard rock casino, there's no need to cheat your players like this especially when we're mostly playing for fun... this is starting to get blatant and I liked playing the game. If we ain't winning real money but your asking us for real money to get coins, u need to focus more on the players and not the casino. Then you send a review and too may get a generic response telling you to email someone that ain't gonna ever respond to you... it's all a game to them, but they want our money. I see why they had to suspend sports better, this is crook activity. If you're going to respond to me give me a real response for all to see, not some generic computer generated one just to look like you care. And don't ask me to email anyone so it's hidden, I wrote a review on the app, respond to me on here also.

Kinda of a disappointment, NO KENO... AFTER PLAYING ON THIS APP FOR 3 consistent weeks, I have spent money playing it... after a while they open all the slot machine which I would prefer! Where are the popular machine (Lock N Link) WE WOULD SEE AT THIS SEMINOLE PROPERTIES??? I'm a WILD CARD HOLDER. Not impressed, there are so many other websites that have better games... come on Hard Rock... be customer pleasing! Keep ALL GAMES AVAILABLE SO WHEN WE GO BACK TO Our favorite ☐ games so we can play them Again MY FAVORITE GAME on this app is (Feelin Fruity 10 ☐457) NOW ITS LOCKED DONT LIKE THAT... especially when you're spending A lot of money \$\$\$!
