Under the terms of its partnership with the online casino, Lady Luck Games will initially provide its partner with access to five of its games, with those being Cuddles Royal, Valhöll – Hall of The Slain, Quartz, Orango Tango, and SpinJoy Society.

These and its other products have enjoyed growing popularity with online casino players since Lady Luck Games was formed in 2019.

The studio's slots will be made available to Videoslots players under UK Gambling Commission and Malta Gaming Authority licenses first. They will then go live in the regulated Swedish and Danish online gambling markets with the popular operator.

This partnership is the second to build on Lady Luck Games' recently announced cooperation with online casino software provider EveryMatrix. This recent partnership enables the Swedish iGaming studio to distribute its products across various regulated markets via the EveryMatrix Remote Games Server.

It was in late May when EveryMatrix announced an investment to endorse Lady Luck Games and its future growth ahead of the studio's NASDAQ First North Growth Market debut on June 23.

Of their integration with Videoslots, Lady Luck Games co-founder and CEO Mads Jorgensen said that their new operator partner has "set the standard for delivering the slot experience in recent years" and that they are excited to be joining a stable of great suppliers that are delivering their content to Videoslots and their players.

Mr. Jorgensen went on to say that he is really hopeful the online casino's "large customer base will find enough variety and innovation" in their games to keep them entertained, no matter the market they are located in.

Videoslots Head of Commercials William Ahlberg added that Lady Luck Games "have been turning the heads in the industry" for some time now and that they are pleased to be able to offer their products. He further noted that they are looking forward to seeing how the games perform in the coming months and what other games the Swedish studio has in the pipeline as they move forward with their partnership.

Last month, Lady Luck Games announced that it has also teamed up with Asia-focused online casino games distributor QTech Games to integrate its content on the latter's platform. The deal enabled the Swedish game maker to broaden its international footprint and unlock untapped markets like Asia, Eastern Europe, and Latin America.

The Lady Luck Slot uses the classic layout of five reels and 20 paylines.

To play the game, you can either click the Spin button or use the Autoplay function. You can choose from 10 to 500 auto-spins.

## **Luck lady slots online casino**

As this video Slot has 20 fixed paylines, your minimum bet can't go under €0.20.

Luckily, it's not a big deal, as I always advise to play with all the betlines available. This is a great way to trigger more bonuses.

## **Lady luck online casino slots**

The maximum bet of the Lady Luck game goes up to €20. However, don't get carried away - max out the stakes only if you can afford it.

Not only because they are very pretty. But because they are responsible for your wins.

The imagery of the Lady Luck Slots features clovers, ladybugs, golden horseshoes, and card symbols.

No Slots game is complete without Wild symbols, and Lady Luck also has one. It's the Lady Luck herself.

When substituting for all the other symbols (except the Scatter), she doubles your wins.

We also have the Scatter symbol, which is depicted as a magical crystal ball. Collect at least three of them and get 15 bonus games.

As soon as the Lady Luck free spins bonus is activated, the background of the game turns into a starry sky and beautiful music starts to play.

Finally, I would like to mention the Gamble feature, which is quite important when you play the Lady Luck Slot.

## **Casino lady online slots luck**

When you win, you have the choice to either take your money as it is... or double it.

Simply click the button that says Gamble and try to guess the color of the card. You can guess as many times in a row as you want. Just remember - if you guess incorrectly, you lose your win.

Lady Luck takes place in an undisclosed location, where you are given the opportunity to take a look at your future and see what it has in store for you.

The reels are framed by a simple golden ornament, while Lady Luck herself gazes upon you from a distance. Besides those elements, the game offers a rather simple universe with an overall pink and purple colour scheme.

Guitar music and retro sound effects will follow every win, and the overall result is quite convincing and, above all, intriguing. Let's take a closer look at the gameplay itself in the next section of our review.

Lady Luck is an easy game to play, and even if you are an absolute beginner you will have no difficulty getting started.

The game is played on five spinning reels covered in various symbols, three of them on display per reel at the end of your turn. The 20 paylines running across the screen are fixed, which implies that you will bet on all of them every single time you play. Use the arrows at the bottom of the game screen to determine your bet per line. Your future cash rewards depend on both the type of symbols lined up and the size of your bet, so try to put a little extra on the table to maximize your prizes. Hit the green Spin button to validate your settings and set the reels into motion. After each win, you can play an optional double-or-nothing game and try to guess the colour of the hidden card. A good answer doubles your winnings, while a wrong choice takes you back to the reels empty-handed – so tread carefully.

The Autoplay mode lets the reels spin loose on their own for as long as you like, while keeping your bet settings in mind. Use it to focus on the action and skip the mini game altogether. You can come back to regular play mode at any time, to adjust your bet size for instance.

The payable of Lady Luck is ripe with various classic items that have the reputation to bring extra luck to their bearers.

First of all, we find the classic card symbols from number 9 to the Ace on the lowest part of the menu. These icons do not pay much, but appear often on the reels to compensate for that fact.

The rest of the menu contains a Rabbit's Foot, a Horseshoe, a Ladybug, a Four-Leaf Clover and a Gold Coin. Try to score as many of those as you can on one or more paylines to land some tremendous cash prizes.

## Luck lady slots casino online

Lady Luck has a few more tricks up her sleeve to make sure that players get more chances to hit the jackpot during their gaming session.

The Fortune Teller herself appears on the reels to act as a Wild card. She can replace any of the previously listed symbols and help you land more winning combinations. She is also the most valuable symbol of all, so try to score winnings combinations with her as well.

## Casino online slots lady luck

Lastly, the Crystal Ball acts as a Scatter. It will trigger wins regardless of its position on the screen, as well as 15 Free Spins. All you need is three or more Crystal Balls to appear anywhere after a spin. All wins during the free games are multiplied by three.

Lady Luck is developed on a rather straightforward and unsurprising: luck itself. Despite that apparent lack of thematic originality, this GameArt game is a solid creation with honest features and plenty of familiar rules that players with a little experience will surely recognise.

## Luck casino lady slots online

The Free Spin mode is particularly generous as it comes with an automatic x3 Multiplier; an easy way to maximize your gains without taking any risk in the first place. And this might just be Lady Luck's most prominent feature in the end.
