Hemos analizado minuciosamente Leonmonaco Casino y le hemos dado una reputación muy mala, lo que significa que es uno de los peores casinos en los que puedes jugar. En nuestra reseña, hemos tenido en cuenta las quejas de los jugadores, los ingresos estimados, la licencia, la autenticidad de los juegos, la calidad del servicio de atención al cliente, los términos y condiciones, los límites de ganancia y de reintegro, y otros factores. Lee la reseña y las opiniones que encontrarás a continuación y descubre si este casino es seguro y confiable.

Advertencia: Leonmonaco Casino usa juegos falsos. Estos juegos podrían haber sido modificados para mejorar el margen de la casa y, por lo tanto, para que el casino tenga una ventaja superior a la que habían concebido los diseñadores de los juegos originales. Ten en cuenta que quizá no todos los juegos que ofrece el casino sean falsos, pero se trata de un tema muy grave. Te recomendamos encarecidamente que no juegues en este casino.

Según la investigación y los cálculos que hemos realizado, Leonmonaco Casino es un casino online pequeño en lo que respecta a los ingresos. Los ingresos del casino son un factor importante ya que los casinos más grandes no deberían tener problemas para hacer frente a premios cuantiosos, mientras que los más pequeños podrían tener dificultades si te embolsas un premio muy grande.

Leonmonaco Casino tiene una licencia que no puede verificarse. Hemos intentado comprobar la validez de la licencia, pero no hemos podido hacerlo. Por ello no podemos garantizar que el casino posea realmente esta licencia.

Advertencia: Leonmonaco Casino tiene un límite de ganancias diarias netas de 5.000 €. Esto significa que no puedes ganar más de 5.000 € en un día; por "ganancia neta" se entiende la diferencia entre la suma de las ganancias y el dinero apostado. Si ganas una cantidad superior, no recibirás la diferencia. Consideramos que todo límite de ganancias es muy injusto para el jugador, por eso penalizamos a los casinos que los imponen, a menos que este límite sea una exigencia de terceros, como legislaciones locales.

Como podrás ver en la información que incluimos en la reseña, Leonmonaco Casino es un casino online muy malo. Te recomendamos que no juegues y que no mantengas ningún tipo de relación con él.

Leo Monaco Casino and sportsbook may be new in the industry, but it sure packs the right elements that can impress online casino enthusiasts and sports betting fans. But there are still ways Leomonaco can improve. For instance, it can add more attractive bonus deals like free spins and weekly bonuses. More games can also be added to compete with other casinos that have bigger game libraries. More importantly, Leo Monaco may want to consider accepting cryptocurrencies for it to tap the growing crypto gaming market.

Leo Monaco Casino is a new mobile-friendly online casino launched in 2020 and it caters to fiat-money players. It is operated by Fondemaco Trading Limited and owns a license awarded by the Government of Curacao. This casino welcomes players from almost all parts of the world, except for Canada, France, Spain, the United Kingdom, and the United States.

Promising 24/7 customer support via live chat and email, Leo Monaco knows how to treat its players. In fact, its casino library will impress both new and old online casino enthusiasts. There are over 1,500 HTML5 games on board, which means these games work smoothly on mobile devices, too. These games are developed by some of the top names in the iGaming industry and are handpicked to give a great online casino experience. But more than its games, Leo Monaco casino has also done a good job when it comes to player incentives. New players will love the welcome bonus, and they will enjoy the daily deals up for grabs.

Leo Monaco Casino offers a decent set of casino bonuses, starting with the 150% Welcome Bonus up to 1,000 EUR. Newly signed-up players can get this bonus when they deposit a minimum of 20 EUR and when they use the code WELLEO150 during the deposit procedure. This Welcome Bonus comes with a 40x wagering requirements and applies only for casino slots by NetEnt, Novomatic, Amatic, Quickspin, Wazdan, and EGT.

This casino also gives a 100% Reload Casino Bonus up to 1,500 EUR that requires at least a 20 EUR deposit and the bonus code RELEO100. Players can also get daily bonuses when they have a total daily loss amount of at least 20 EUR. If so, they can enjoy the Daily Recharge Bonus that returns 10% of the amount they lost for the day. To make things more interesting, Leo Monaco also gives away a 100% Welcome Sports Bonus up to 100 EUR with the promo code WELSB100. Unfortunately, though, this casino does not offer a Bitcoin casino no deposit bonus.

There are over 1,500 HTML5 games in this casino and they all cater to various types of players. But besides the RNG crypto games, Leomonaco Casino also offers live casino table games that enable players to experience a realistic casino atmosphere from the comfort of their home. On top of these, this casino also features an online sports betting platform that offers pre-match betting, live betting, virtual sports betting, and of course esports betting. A total of 20 sports betting markets are on board Leomonaco at the time of writing this review. There are also different odds format supported, including decimal, fractional, and American.

Leo Monaco Casino currently accepts only fiat money and works with EUR as its base currency. This means no cryptocurrency is accepted here so far. What is great, though, is that this casino and sportsbook supports common and popular payment methods.

## Monaco casino leon

Players can deposit at least 10 EUR when they use any of the supported payment methods. These are credit cards, e-wallets, and even bank transfer. Deposits are processed instantly, except for the bank transfer option which takes within 72 hours to complete.

Non UK casinos are gambling sites located outside the United Kingdom. On this website, we feature all non-UK licensed casino sites for people not currently living in the UK.

Our top list features only the best options out there and we review the casinos to make sure you will find a top-rated site from the get-go.

British players are used to some of the best gambling websites in the world. UK based casinos are highly regarded both for their excellent game selection as well as for their security and player focus.

## Casino monaco leon

However, for UK players abroad the casino market looks a bit different. Not all UKGC licensed casinos are open for UK players living abroad, and that's why we created this site to make it easier to find great non UK casinos that still have the same quality that Brits are used to. In Italy, for example, casinononaams.org lists the requirements for Italian casino players.

All the casino sites without UK license that we feature on this site offers blackjack, non UK slots not on Gamstop, live casino, roulette, craps and much more. Of course, all are 100% mobile friendly so you can play at any one of the non uk licensed casinos we feature from your mobile or any other device that you have at hand.

British players abroad can't play at UK licensed casinos. This makes non UK casino websites a great option as they accept players from all over the world, including the British folks born and raised in the United Kingdom.

The gambling sites listed on this website all have active SSL encryptions and safe protocols for handling your personal data.

WG Casino is a brand new non UK casino, launched in 2020. The site is hugely entertaining with a cute theme and a design full of cartoon characters. It's also fully accessible via both mobile and desktop sites, which makes it very user-friendly. The big downside though is that while the casino claims safety and security, there is no licencing information on the site at this time, which is a bit of a concern for us. It's also good to remember that as this site does not hold a UK license, it's in the casinos not on gamstop category.

WG Casino offers a very exciting welcome bonus to newcomers. This is split across three deposits in order for players to get their hands on the full bonus. For the first deposit, players are awarded a 200% match deposit with a minimum deposit of 50 EUR. A second deposit matches 100% from 100 EUR and the third gives a 150% match with a deposit of 150EUR or more, all of which can be used on WG Casino games.

## Leon monaco casino

There are not any no deposit free spins that come attached to this welcome bonus, however. Where the UX and website of WG Casino steps up, though, is in the additional bonuses that are available to players. There are regular tournaments in place, which revolve around playing specific slot games. Players topping the leaderboard at the end of the competition can win as much as 4000 EUR. There are even lotteries on offer where freespins are gifted.

The non UK licensed casino site has a ton of exciting games ready for players to enjoy. These come from a number of top names in the industry, including Novomatic, Booongo, Betsoft, Wazdan and BGaming. The games themselves are carefully categorised into options that include new, slots, table games, mini-games and live casino, making it easy for players to select the game they wish to play. There's also a search function for players who know what they are looking for.

Customer service is taken seriously at WG Casino. As a starting point, the casino is active on various social media channels, including Facebook and Twitter where players can get in touch. On top of that, there's a 24/7 live chat that requires players to fill out a short form before getting in contact. There's also an email option, though this takes longer to elicit a response. As a final point, there's an FAQ in place.

## Casino leon monaco

Not much is given in the way of payment information on the site at this time. What can be gleaned is that there are options for Visa, Mastercard, PerfectMoney, Skrill and Neteller. Deposits appear to work normally, but there are strict requirements for any withdrawals that can be made. There's a minimum withdrawal of 100 EUR, but there needs to be 3x the amount they deposited in the player's account. All in all we would say the payment methods are above average when you compare with other non UK licensed casinos.

WG Casino is a nice casino with plenty of games and some great bonuses. They cover the main banking options and have literally hundreds of slots to enjoy.

As a new player that signs up with the operator, you will get the chance to claim an impressive welcome bonus offer on Crazy Star Casino games. The operator rewards newly registered players with match bonuses over the first three deposits that they make. On the first deposit of at least €20, you will receive a 150% match bonus, while the second and third deposits come with a 175% and 200% match bonus respectively.

Crazy Star Casino features games from top providers in the industry, such as Thunderkick, Betsoft, NetEnt, Play'n GO, Ezugi, Quickspin, Tom Horn and so on. The casino lobby is sectioned into categories and you can also search for games by using the search feature provided at the top of the lobby. Crazy Star Casino has a broad collection of video slots, table games, and speciality games as well as live dealer games.

## Casino leon monaco

To ensure that players get the best gaming experience, the operator offers premium customer service 24/7. Although there is no FAQ section available on the casino site, you can get support via live chat by clicking on the "Support" link in the navigation pane. We tested the live chat support during this review and the response time was approximately 2 minutes. You can also get assistance from the casino via email at [support@crazystar.com](mailto:support@crazystar.com).

Crazy Star Casino supports popular payment methods for deposits and withdrawals. You can use credit/debit cards such as Visa and Mastercard, or e-wallets such as Perfect Money. The processing of deposits is instant, while withdrawals can take up to 24 hours. Besides that, the casino does not charge players any fees for processing deposits or withdrawals. However, you may have to pay currency conversion fees if you are making transactions from a currency not supported.

We have reviewed Crazy Star Casino comprehensively. While the non UK casino site only entered the market in 2020, it has continued to build a good name for itself. As a licensed casino that features a wide range of games, it promises fun for all players. We are impressed with the incredible welcome bonus and payment methods supported. Our final verdict is that Crazy Star Casino is a good online casino for players to try out.

## **Monaco casino leon**

Crazy Casino is a non UK licenced casino and was established in 2019. For us, Crazy is the best option if you want non UK slot sites. The site holds a licence from Curaçao, giving players some comfort in terms of security. Crazy Casino itself offers a slightly quirky design, with dogs riding spaceships to glowing lions. Despite these little gimmicks, the casino is serious where it counts, providing players with a range of games and some impressive bonuses to get their gaming started. Keep reading to find out more about Crazy Casino.

As Crazy is a non uk license casino you can claim lots of promotions and bonuses as a new customer.

New players can get started with the Nutty Welcome package. This bonus is awarded on the first three deposits made by newcomers and is as follows: the first deposit awards a 100% match up to 500 EUR. The second deposit gives a 50% match up to 500 EUR and a third deposit also gives a 100% match bonus up to 500 EUR – the perfect way to start playing any of the Crazy Casino games.

## **Monaco leon casino**

In addition to the match deposit bonus, the welcome offer also includes a number of spins. These spins are awarded at 50 free spins on each of the three deposits, making a total of 150 spins if the player goes the whole way on the UX and website of Crazy Casino. There are further options too for players to enjoy some of the bonuses available, including daily bonuses with freespins.

Crazy Casino has a wealth of games for players to choose from and these are all carefully categorised neatly on the main page. Categories include slots, table, live and an all function. On top of that, there's a search function for those players who know which game they are looking for. The games are provided by a mix of providers, including BestSlots, Mr Sloty, Booongo, Betsoft and Playson, helping to keep a diverse range of options. Compared to most non uk casino sites Crazy has a really good library of games and suppliers.

Crazy Casino offers an exceptional support service, particularly for players accessing help through the live chat feature. Here, players can enjoy speedy 24/7 customer service that's manned by very helpful employees. There's an email contact too, but this is a little slower in terms of getting a response. Unfortunately, what is missing here is an FAQ section, which would be a lot more helpful in determining whether getting in touch with someone is absolutely necessary.

## **Monaco leon casino**

There is a range of payment options provided by Crazy Casino. These include Visa, Mastercard and Maestro as well as eWallets such as Skrill, ecoPayz and Entropay. Not all these options can be used for both deposits and withdrawals, so it's important to check these out on the site. The site also only accepts euros and requires a minimum deposit and withdrawal of 20 EUR in order to proceed with any transaction. For a non UKGC licensed casino we must say they have some great banking methods to choose from.

At the end of the day, Crazy Online Casino offers players a fun and vibrant online gaming platform. There are a large number of bonuses available, and all of these follow the cute theme with fun names. The selection of games is diverse, but due to the Curaçao licencing, does miss out on some of the top providers and also doesn't offer quite the same level of security as other sites. Nevertheless, this site does offer some fun.

All players need to do is sign up, deposit and it's added automatically.

## **Leon casino monaco**

While many sites will offer free spins as part of their welcome bonus, Casino Triomphe does not. However, as the bonus can be used on any games within the casino, players will be able to enjoy playing slot games by simply using the match bonus. Throughout the UX and website of Casino Triomphe, there are other bonus offers to make use of, with a loyalty program and freespins awarded on Friday.

Casino Triomphe offers an excitingly diverse selection of games and is a great choice for non-UK online slots. These are all carefully categorised to make it very easy for players to find the game of their choice. Slots, live casino, card games, video poker, micro bet and even action games are just some of the options available, though slots make up the biggest portion. A range of different providers offer these games, including Betsoft, Booongo, Playson, Mr Slotty and a number of others.

Casino Triomphe ensures that players can get in touch very easily. As a starting point, there's a comprehensive FAQ that answers the majority of the popular questions. For actual issues though, there's a live chat that operates around the clock, every day of the week. Casino Triomphe offers a decent interface with a good selection of games, though none of the providers are top-level. The licence with Curaçao is a little bit of a downer, for while it does enable players from around the world to join, there have been security and trust issues with this casino reportedly involved in piracy. It's therefore recommended that players exercise caution when choosing to sign up to this site.
