According to Chumba Casino, they have employed some of the best lawyers and legal advisers in the iGaming industry to make sure that their Sweepstakes system does not violate any US laws.

I previously had an account at chumba casino where twice I hit on two jackpots one was for \$700 the other was for \$400 and before I could even get to the withdrawal button to start a withdrawal boost x my winnings were completely taking right off the machine.. I wrote The Establishment spoke to their employees was treated with complete disregard and disrespect, then was falsely accused of having multiple accounts and was blocked. I never received any of my winnings I've never been allowed back on chumba , and now I'm going to try to go above their heads, the first of all have them clear my name there because it's a lie I did not have multiple accounts and 2nd to have given into me the money that I won fair and square playing with my money that they never ever made a mistake with and accidentally gave it back to me, as long as it was coming out of my pocket..

Obviously, the two main highlights are the Sweepstakes System that allows players from the US to play legally for cash prizes. Also, the no-purchase bonus that is automatically awarded to all new players is another big positive.

Washington state is the only US state outlawing play at Chumba Casino. Players in Washington state are not eligible to redeem Sweeps Coins for cash prizes.

To be licensed and regulated in the US, it has to offer fair and competitive games to give players a chance to win. This is relayed by the RTP percentage for each game. According to Chumba, the lowest RTP rate on the site will never go below 92%. This means that over time after extended gameplay, you can expect a return of your money of at least 92% on all games.

Chumba Casino reviewers love the selection of online games. Chumba Casino currently offers over 100 games which include table games, Blackjack, Slots, Jackpot Slots, Video Poker games, and Roulette. The majority of the games offered are slots of which there are over 90 available to play.

But 1 million GC costs \$5, and players receive 5.05 SC free with the purchase, and 5 million GC for \$20 gets players free 20.50 SC.

Chumba Casino hit the online gaming playground in 2017 when it was established by VGW Malta Limited. I recently started playing Chumba Casino about a month ago. I won \$300 twice every time I try to submit my information for verification the system just keeps loading the page and then it goes blank. I reached out to customer service and they literally sent me 8 emails everyday for 8 days straight saying "DUE TO HIGH EMAIL VOLUME" and yet here we are 2 weeks later and I still haven't gotten a reply. What I'm trying to figure out is the part of the verification with the bank statement it says it can not be in black and white. I bank with JP Morgan Chase, when they started sending out color statements unless I been under a rock for the last ten years. I wish everyone luck and hope they get the winning they are rightfully owed.

## **Instant casino credit**

Several progressive slots at Chumba Casino offer grand jackpots that can be redeemed for seven-figure cash prizes.

When playing games, you can easily choose which currency you want to use to bet. Gold Coins have no monetary value and cannot be redeemed for real money afterwards, which is different than a traditional casino like Ignition. On the other hand, if you play with Sweeps, you can later redeem them for cash prizes.

However, most of the slots on the Chumba Casino website are similar to some other games that experienced slot fans might recognize. For example, if you are a fan of the Golden Goddess slot, the closest equivalent would be Lucky Charms in Chumba. If you enjoy Bonanza, Wild Gold shouldn't disappoint you.
