Slots are slots. If you're used to playing them in a brick-and-mortar casino, you're not going to have any trouble adapting to their online cousin. The process is the same: insert your money, select your paylines and hit the spin button to bet.

The bottom line? Online slots are like brick-and-mortar slots in nearly every way, with additional benefits. If you're a fan of these money-sucking machines, then we recommend giving their online counterpart a shot. But first, start with this page. Learn about all the different games, including virtual reality games, you can play

The mobile gaming industry is a big deal. Over 13 million people play online casino games every month, for a good reason: it just makes sense to play on your phone or tablet.

The convenience offered by mobile gambling simply can't be matched by your local casino, or even the most famous casinos in Las Vegas and Atlantic City. Mobile casinos let you play from any device and from wherever you are. If you've got an iPhone, iPad or Android phone, you're all set to enjoy thousands of the best online slots.

You don't even need to hunt down dedicated mobile sites. The best online casinos are optimized for all screens, giving you the choice to load up your favorite site on any device at any given moment. Most importantly of all, the slots and casino games will keep their graphics and functionality too. It's no wonder that people are ditching bulky slot machines for mobile slots.

Want to cut the fluff and focus on winning? Classic slots are for you. They might be simple, but you're much more likely to land regular wins when playing a traditional 3-reel or 5-reel slot. Plus, classic slots tend to have some of the best jackpots around.

With their quirky graphics and colorful features, video slots often resemble video games. These come in a 5, 7 and sometimes 9-reel variety, have multiple lines (more than 50+), bonus reels and rounds. Examples of popular video slots include Bally's Quick Hit, IGT's White Orchid, and WMS' Goldfish.

One of the areas that online slots distinguish themselves from their brick and mortar counterparts is that you can play for free. Online casinos are able to offer free games because they aren't limited in space like B/M casinos are. In other words, you're not taking up space a paying customer could. It doesn't cost them anything extra to allow you to play for free, and they figure if you play for free long enough, you might convert to a paying customer in the future.

You can play most slot games, variations and themes for free including some of the big names like Star Trek, Monopoly, Twilight Zone and others. That includes 3-reel slots, video slots, games with bonus rounds, etc. The only slots that you can't play for free, for sure, are progressive slots.

Many of them are on a network, and they don't want a jackpot triggered by a free money spin. But why would you want to play for free? Why not make real bets?

Everyone will have their own reasons. For us, one of our top reasons for playing free would be to test the casino's software. Does it work well? Is it fast? Do they have the games, themes and features we want? For other people, though, the reasons can come down to not trusting online casinos, not wanting to gamble or just wanting to play a quick game or two with what little downtime they might have. Betting money isn't for everyone. Luckily, if you're not too keen on betting with your own cash, you can always claim free spins or a no deposit bonus at online casinos. Just like playing for free, these offers let you test the casino's slots. The difference? You have the opportunity to win real money prizes!

Most online casinos use respected verification companies, which help to regulate the gambling industry. If a site has the seal of approval from one of these groups, like eCOGRA, that proves legitimacy and trustworthiness. Legitimate establishments also hire third-party auditors to test the security and fairness of a site's operations. Gaming Associates, iTech Labs, and Technical Systems Testing (TST) are three leading auditors.
