Slot reactoonz online

Reactoonz is een slot met hoge variantie en een hoge RTP van 96,51%. Gezien het grote aantal bonusfuncties, kun je vrij grote beloningen scoren - zeker significanter dan de gemiddelde spellen met vergelijkbare statistieken. Soms vergt het echter wat geduld om de jackpot te winnen, en er zouden nogal wat verliezende spins zijn.

In fact, Reactoonz is part of a series of games from Play N Go. The first is called Energoonz and was released in 2013, whereas the sequel, Reactoonz 2, was released in 2020. Both of these slots feature the same high energy and cluster pays feature as Reactoonz.

There is no mistaking that this is a sequel as the visual similarities are striking. We are greeted with the same logo screen with the classical 7x7 layout. Reactoonz 2 soundtrack has gone with a more "hip-hoppy" vibe, and to be frank, the snare drum effect gets a bit too obnoxious, so in this regard, we prefer the original soundtrack as it fits the sci-fi theme better. Also, the gameplay on Reactoonz 2 is not as smooth as it was before. For a cluster pay slot, this is quite an important aspect, as there is a constant movement with all the symbols dropping around. The colours visually look better on Reactoonz 2, they are more vibrant and the special effects are graphically more refined. So far you could say that it's 1-2 in the scoreboard. You will see a lot of familiar faces on Reactoonz 2, the little guys are back and they look as good as ever. Things are also less static right now, as you can see them looking around. This little addition makes the game seem livelier. In total Reactoonz 2 comes with 8 symbols, which then can be split into two categories, the one-eyed low symbols and two eye high symbols. The difference in payouts is huge, so it is essential to make wins with the big boys. Reactoonz 2 is trying to keep things exciting with 4 different Wilds. These are the Uncharged Wilds, Electric Wilds, Gargantoon Wilds and Energoon Wilds. For better or worse, the Reactoonz 2 payouts haven't seen much of an overhaul, to be honest, there barely have been any changes at all. To state the obvious, the game layout is still the gold ole 7x7 with Cluster pays. The default RTP has been toned down ever so slightly by 0.31%. Another two things that have been left untouched are the high volatility and default bet range. Perhaps, the most important question for some, what about Reactoonz 2 max win potential? At the beginning Play'n GO were presenting a 3000x payout. Fortunately, they wised up and increased it to 5000x. This is 250x more than the original Reactoonz. A small upgrade, but an upgrade nonetheless.

Symbols cascade from the top of the screen, filling up the grid like an Alien version of Connect 4. Symbols of five or more of the same color make a winning combination. Adding to the intergalactic theme is a nice soundtrack which complements the fun, vibrant personality of the game. This is one of those online slots that gives you a feel-good vibe as well as packing in the features.

Nella slot machine Reactoonz ci sono 4 simboli che pagano di più e 4 che pagano meno. C'è anche il simbolo "vortice" che serve da Jolly. Una caratteristica importante di Reactoonz è il Quantum Leap, un bonus che sarà conteggiato man mano che ottieni le combinazioni vincenti. Questo bonus include cinque funzionalità, e ognuna ti darà in modo casuale una delle "caratteristiche quantistiche" quando è completamente carico: Implosione, Alterazione, Abbassamento e Incisione.

Reactoonz 2 has stuck with the roots of the game, as overall the slot looks familiar to the one that we've been enjoying so far. Of course, the big question is, how comparably better or worse is the sequel. We will seek our answer in the next paragraphs. This is the alien invasion that we all signed up for, so without further ado, let's get right into this one.

Reactoonz is een slot met een alien thema in de stijl van een arcadespel. De symbolen in de vorm van aliens zijn helder en zijn er in meerdere soorten en stijlen. Het zijn geen stilstaande beelden - ze knipperen en knipogen stiekem naar elkaar kijken! Alle speciale functies zijn prachtig geanimeerd en de game ziet er erg soepel uit zonder al te overdreven te zijn qua graphics.

Reactoonz is een op cascade gebaseerd clusterslot. Dat betekent dat, in tegenstelling tot traditionele slots, de symbolen van bovenaf in het raster vallen, waarbij symbolen in de winnende combinaties verdwijnen en worden vervangen door de nieuwe symbolen totdat er geen winnende combinaties meer kunnen worden gevormd. De winlijnen zijn gebaseerd op het cluster van vijf en meer buitenaardse wezens die horizontaal of verticaal naast elkaar staan. Hoe meer symbolen er in de combinaties zijn opgenomen; hoe groter je beloning zal zijn. Elke keer dat er een overwinning is, wordt de meter opgeladen en zodra deze vol is, worden de Quantum-functies geactiveerd.

Reactoonz from Play N Go is a wild game, which is no surprise given how many special features involve wild symbols. This is a friendly-looking slot bursting with creativity, fit for anyone that wants a spin.

Reactoonz is een 7x7 rastercascade met hoge variantie. Als thema heeft het grappige en schattige kleine aliens die op het raster vallen en de winnende combinaties voor jou vormen! Met een clusterstructuur en een maximale winst van 4.570x biedt de slot een spannende spelervaring. Je wint bij een samenstelling met vijf of meer aliens van dezelfde soort. Om een winnende combinatie te krijgen, moeten de symbolen elkaar verticaal of horizontaal raken. Het winnende cluster wordt vervolgens verwijderd, waarbij nieuwe symbolen op hun plaats vallen totdat er geen manier meer is om een winnend cluster te vormen. Een uniek aspect van Reactoonz is de Gargatoon – het ladende Wild-symbool dat krachtiger wordt naarmate je meer winnende spins haalt.

Be sure to make the most of bonuses when you play Reactoonz online. Casino sites go to great lengths to attract new customers, so when you search for a casino take a look at the promotions they have to offer.

Reactoonz è una slot a tema alieno con uno stile di gioco simile ad arcade. I simboli che rappresentano gli alieni sono luminosi, ce ne sono molti e diversi fra loro, e non sono statici: sbattono le palpebre, ammiccano e si sbirciano a vicenda! Tutte le funzionalità speciali sono splendidamente animate e danno molta fluidità al gioco senza appesantire la grafica.

I simboli che trovi in Reactoonz sono tutti dei mostriciattoli colorati, ciascuno con un certo valore che potrai vedere nella tabella di pagamento. Ad ogni giro non vincente c'è la possibilità che il Gargatoon faccia cadere nello schema da 4 a 8 simboli Wild, caratterizzati da una sfera di energia luminosa. Se riuscirai a riempire tutta la barra di energia sulla destra, allora il grande mostro entrerà nello schema e avrà funzione di Wild gigante, che potrà occupare fino a 3x3 caselle. Il mostro rosa è quello che in questa slot machine paga di più, fino a 1200 volte la puntata se trovato almeno 15 volte, seguito dal mostro verde, che paga fino a 480x. Ovviamente non ci sono linee di pagamento, ma le combinazioni si possono effettuare liberamente in qualunque posizione dello schema e in qualunque modo.

A cluster pays slot game, like Reactoonz, works a little differently from traditional slots. Normally, a player would need to line up symbols horizontally across adjacent reels; however, this is not the case for this slot. Instead, a win is achieved by landing five or more of the same alien in a group. These symbols can land horizontally, vertically or diagonally. This group is called a cluster, and the pink alien pays out most at 750x the player's stake for five in a cluster.
