Making deposits at Players Palace Casino is easy as they provide a wide range of different deposit options. The easiest method for both deposit and withdrawal is using credit or debit cards as these require no special passwords or accounts. Simply pull your regular credit or debit card out of your wallet and fill in the required details on the Players Palace cashier form. Unfortunately, not all cards allow withdrawals in all countries, but for those whose cards allow withdrawals, this is clearly the simplest way. For those who wish to use e-wallets, there are a number of options available. Neteller, EZIPay, MoneyBookers, and Click2Pay are all good e-wallet options that are available at Players Palace. EZIPay is not a withdrawal option, so it is not as highly recommended as the others. Players who are wary about having their financial information available online can use Ukash or Paysafe card. These services allow purchase of vouchers or cards at convenient locations in a number of different countries. After purchasing a pre-paid voucher or card, the player uses the identification number of that voucher to make a deposit. The voucher or card can only be used once, and only the prepaid amount can be used. This means that there is no transfer of financial information. These cannot be used for withdrawals. Players who use Ukash or Paysafe cards will need to use a different method such as a check by mail to withdraw their winnings.
