Indian players are quite curious but also cautious when it comes to experimenting or trying anything new. This is one of the reasons why the 'Value-for-Money' factor along with trust or reliability happens to be the major factor that decides the success of any product in general.

Considering that the concept of online casinos are fairly new to Indians and the idea of online casinos is yet to spread-wide and achieve mainstream acceptance, the low minimum deposit of ₹ 250 (INR or €/ \$/ CA \$ 3) is a huge positive point as the players can have a taste of the casino spending very little and then decide on how they'd like to move ahead, which happens to be a way of introducing the casino to players, so they can have a taste of the casino without pushing them far out of their comfort zone.
