We've got good news: you can play free slot games for fun in Canada, as long as you're over the age of 18.

It's a debate as old as the very first online casino: should you play online slots for free or bet for real money? The only valid answer is that there is no better or worse – there are just different advantages.

Slots online vegas casino

At VegasSlotsOnline, we love to play casino slot games both ways. The two complement each other, and even if you're a real money player, sometimes you should consider playing free online slots.

First of all, playing online free slots will make you see if the game's marketing was simply hype or if you really enjoy the game's software. It's also a great way to test out the selection of games at a new online casino, and make sure the game lobby is to your liking. As you're playing any free online slot, ask yourself a few questions, such as: How often does this game payout? Does it offer a good betting range? Does it have an interesting theme? Does it have enough bonus rounds for my liking?

Having your own checklist, tailored to your preferences, will ensure that you won't waste money on slot machines you don't really like to play.

Playing free casino slots is the perfect way to unwind, relax, and simply enjoy your favourite free slots games online as entertainment – without getting caught up in chasing wins.

Casino slots vegas online

Free slot games are the most played online casino games in Canada, way bigger than blackjack, roulette, or any other online casino game out there. That also means there are more of them – thousands, in fact. Can you imagine playing thousands of slot machines for real money to discover which one you liked? Of course not, that's the beauty of free online casino slots: you can take each slot machine on a trial run without worrying.

Playing free slots for fun gives you a better feel for that particular online slot machine. Even though slots are a game of chance with random outcomes, they have different ways to win, different bonus games, varying numbers of symbols, and different jackpots.

Casino online vegas slots

Once you play free slot games online, you'll get a feel for your favourite machines and how often they'll pay out. You'll also notice which slots feel like they pay out more often. Some pay out small jackpots regularly, while other slots pay out larger amounts occasionally. You'll get to know which you enjoy seeing: the big wins, or small wins regularly.

Beyond finding the online slot machines you enjoy playing and getting a taste of new slots sites, there is no real winning strategy to them. Slots are games of pure chance, and nothing we can do can influence the outcome of each spin of the reels.

Casino online vegas slots

Don't pay too much attention to the Return to Player (RTP) numbers that online casinos highlight. Those figures are based on millions of spins. Just because the slot machine you choose says it has a 95% RTP, it doesn't mean you'll get back \$95 for every \$100 you spend.

RTP also applies to free casino slots games. You'll get a feel for how often a particular free slot pays out as you play. That's probably your best indication of a free slot's payout rate. The good news is that it won't cost you a cent to find out.

Though, there are some slots features that you should be a bit more mindful of when hunting for your next new online slot. Above all else, understand how reels and paylines work, and how they will affect the kinds of bets you can make. The more paylines you bet on, the more you can win – but of course hitting the right combination is harder.

You should also look into the individual features that all slots games have. These features seriously affect how much you could win. Such features include wild symbols, that replace other symbols to hit winning combinations, scatter symbols, that activate free spins and bonus rounds, and multipliers, that will multiply your winnings.

I feel this slot app is the best out there because it is realistic and keeps you engaged. If playing for free it can become frustrating because the intent of ur app is to get you to buy coins. It will not just allow you to obtain an overwhelming amount of coins. Or what happens to me is that when I do get a lot built up I get stupid and go play black jack which has no bet limits and I get greedy and lose all there. What I like most about this app is the games are realistic and a challenge to win and not cartoonish and and just shower you with unearned coins, because i have found winning a bunch of garbage coins on a slot app that has animated childish slot games is boring and predictable. I do get flustered at this game delete it and reinstall after I get cooked off. It will not let you win a lot of high bets. That will end up costing you ur stash. I have never been one to pay to play games. Never have I hope I never will but if I did this would be the one worth ur money

Game is well designed with good mixture of variety, including keno, lotto, and table games. Graphics are spot on with realistic animations. There are daily give a ways from spins to special events like anniversary gifts to hidden coin grabs. My only advice is not to lose sight of the business model, pay2play. The game is free, and they want you to buy coins. There are no regulations like you have in real gaming so you are so you are at the mercy of programming as to pay out tables and RNG random number generation chip control. You can bet they have designed gaming to frustrate you to buy coins with your real hard earned money! I refuse to buy play money! My advice....play conservative to get your stash up and stop and wait for a 24 hour cool down when your coins are low to build your coins back up from the dailies. Hard to do I know, so install a few games if you have that gaming itch. Enjoy!

People complaining about not winning would probably complain about unrealistic slot play. It's a game, everyone. Take it easy, good lord. You don't have to spend money. It's realistic in that you aren't winning ALL the time- play "smart"- or as smart as you can when you're gambling and it's fine. I get more time out of it when I bet normally. There are ups and downs of course. When I get greedy for too long, then yeah- money goes away. But there are enough bonuses and free coins to keep you going for a while longer. It's a gd gambling game. What do you expect? One big change that needs to happen is in relation to the unskippable animations when winning on multi-games. If I play 20 card keno, I don't want to sit there while my wins are tallied up, one at a time, until we go through 20 cards- especially when it's a win that's just giving my bet back. Multi-hand poker is even worse. If this was removed or made skippable, I'd count it as my favorite casino app. Other than that, it's a good number of slot games, even if the variety isn't wildly impressive. - many are very similar to another 1 or 2. But- Not many casino apps have slots, cards and keno, scratch cards and a lottery. It's a good time waster. You can Pay money to support them and/or your crippling imaginary money gambling habit, or just play it for free. It's not pay to win- it's not real money you're walking away with.

It's important to us to make our games the best experience of any casino online!

We love to play genuine Vegas slots online, and you will find all the best titles here. For free. These are the same casino games you would play in Las Vegas, Reno and Atlantic City.

Slots vegas casino online

The slots in Las Vegas are the best in the world, with all the best new games as well as classics like Cleopatra, Wizard of Oz, Buffalo and Wolf Run.

We often get asked about whether playing these games online is possible. Well, the answer is yes, you can. We have a huge selection of genuine Las Vegas originals to play for free here.

Casino vegas slots online

Because we focus on the actual Vegas slots, but don't include the thousands of terrible 'me too' producers, you will find it much easier to get the games you want. You can navigate easily to find out which games are online, and which ones are not.

Even better, because of our 'no spam' policy, you will never be asked to provide you email address and we do not try to get your email by making you sign up to an email list. We also don't use pop-ups to try and get you to play for cash.

If you are looking to play Vegas slots online, then your choice depends on where in the world you live. In general, if you want to play the newest games online you can only do this if you sign up with an online casino.

As of yet, none of the Las Vegas casinos have opened online in most countries, including the USA and Canadian online casinos. The good news, though, is that things are progressing in the right direction. Harrah's have opened an online casino for UK casino slots players, as has WMS (who make Wizard of Oz Slots and Lord of The Rings Slots).

Casino vegas slots online

IGT, the guys who make Sex and The City Slots and Wolf Run also offer games for UK players. In the UK, a lot of the IGT games are branded under their Barcrest label, but more frequently, the IGT logo is being shown over any other.

As mentioned above, you can play many Vegas slot games in the UK (like Monopoly and Wheel of Fortune), but not in most other countries.

Players in the US and Canada can find very close, but not quite identical slots to these and other famous Vegas slots online at the casinos listed above. So, you can find copies of famous games like Cleopatra, Wheel of Fortune, Double Diamond.

In the future, we will see all of the big Vegas hotel casino open up properties online. The process is already underway, with New Jersey introducing regulation for online gaming in 2013. Other States are expected to follow, once a few years of results from New Jersey have come in and can be assessed by other States.

Casino vegas online slots

The regulation will eventually lead to the opening of real vegas casinos online. That said, it will probably be a long, slow process. Some analysts predict that Vegas casinos will appear online for most USA States around 2020.

It is always difficult to come up with a top list, especially when there are so many amazing vegas casinos. If I was looking off-strip, I would probably choose the East Side Cannery. It has good payout rates.

Casino vegas slots online

Worth noting though, that the East Side Cannery can be very quiet on weekdays - this is perfect for me, but other people might prefer a busier casino.

When it comes to Downtown, I love all the casinos, all for different reasons. If I had to choose one though, it would probably be El Cortez - it has

supposed to have the best slot machine payout rates in the whole of the Las Vegas downtown area.

Although there are no Vegas casinos online for most USA players, people in New Jersey can play at their Atlantic City Casinos online, like Golden Nugget and Caesars.

Unfortunately, these AC Casinos online do not intend to accept players from any other State or any other country at any stage soon. In the absence of Vegas casinos for USA players, this means that if you live in the US, you need to find an alternative..
