We've got good news: you can play free slot games for fun without worrying about the law. As long as you're not betting real money and only playing free casino slots games, then it's not technically gambling.

It's a debate as old as the very first online casino: should you play online slots for free or bet for real money? The only valid answer is that there is no better or worse – there are just different advantages.

## **Www.casino games**

At VegasSlotsOnline, we love to play casino slot games both ways. The two complement each other, and even if you're a diehard real money player who's trying to reel in serious cash, there are times when you should consider playing free online slots.

First of all, playing online free slots will make you see if the game's marketing was simply hype or if you really enjoy the game's software. Free slot machines have the same mechanics as real money slots, which means you can test out mostly all features without risking your own cash. It's also a great way to test out the selection of games at a new online casino, and make sure the game lobby is to your liking. As you're playing any free online slot, ask yourself a few questions, such as: How often does this game payout? Does it offer a good betting range? Is there a big jackpot up for grabs? Does it have enough bonus rounds for my liking?

## **Games www.casino**

Having your own checklist, tailored to your preferences, will ensure that you won't waste money on free slot machines you don't really like to play.

Playing free casino slots is the perfect way to unwind, relax, and simply enjoy your favorite free slots games online as entertainment – without getting caught up in chasing wins.

## **Www.casino games**

Free slot games are the most played online casino games, way bigger than blackjack, roulette, or any other online casino game out there. That also means there are more of them – thousands in fact. Can you imagine playing thousands of slot machines for real money to discover which one you liked? Of course not, that's the beauty of free online casino slots: you can take each slot machine on a trial run without worrying.

What's more, with free slots no download you can check out the game lobby at a new casino in no time, to see if it's worth joining for real. Does the site offer free casino slots from different providers? Is there a variety of slots available, such as a good mix of classic, video, and 3D slots?

Playing slots for free helps you get a feel of the casino faster.

## **Www.casino games**

Playing free slots for fun gives you a better feel for that particular online slot machine. Even though slots are a game of chance with random outcomes, they have different ways to win, different bonus games, varying numbers of symbols, and different jackpots.

Once you play free slot games online, you'll get a feel for your favorite machines and how often they'll pay out. You'll also notice which slots feel like they pay out more often. Some pay out small jackpots regularly, while other slots pay out larger amounts occasionally. You'll get to know which you enjoy seeing: the big wins, or small wins regularly.

## **Www.casino games**

Beyond finding the online slot machines you enjoy playing and getting a taste of new slots sites, there is no real winning strategy to them. Of course, that doesn't mean today can't be your lucky day.

Don't pay too much attention to the Return to Player (RTP) numbers that online casinos highlight. Those figures are based on millions of spins. Just because the slot machine you chose says it has a 95% RTP, it doesn't mean you'll get back \$95 for every \$100 you spend.

## **Www.casino games**

It does mean you could hit it lucky on your first play and win a million dollars while 10,000 other players lose their stake. That's just the way Lady Luck works, and why you shouldn't take RTP to heart.

RTP also applies to free casino slots games. You'll get a feel for how often a particular free slot pays out as you play. That's probably your best indication of a free slot's payout rate. The good news is that it won't cost you a cent to find out.

## **Games www.casino**

All in all though, there are some slots features that you should be a bit more mindful of when hunting for your next new online slot. Above all else, you should understand how reels and paylines work, and how they will affect the kinds of bets you can make. The more paylines you bet on, the more you can win – but of course hitting the right combination is harder.

You should also look into the individual features that all slots games have – these features that seriously affect how much you win. Such features include wild symbols, that replace other symbols to hit winning combinations, scatter symbols, that activate free spins and bonus rounds, and multipliers, that will multiply your winnings to make your final payout much nicer.
