(一)

The following was written in Yolanda's diary.

Day 1

For my sixteenth birthday, I was taken to New York City by my parents. It was also my first time on a plane, so a lot of pictures of me were taken at the airport, on the plane, and in my seat. We arrived in no time, and to my surprise, we were picked up by a shiny black limo. I found out later that it was arranged by my mother. She knew that I always wanted to be treated like a movie star.

Day 2

I was woken up early because we had tickets for the first boat to Liberty Island. Only those on that boat were allowed to climb up to the top of the Statue of Liberty. I couldn't believe my luck.

Day 3

I got another wonderful surprise today. We were met in Central Park by my older brother, Jemal. He didn't have any classes at NYU, so he decided to show us around and take us to some famous sights like Strawberry Fields, the Met, Carnegie Hall, and Times Square.

Day 4

It was decided that we would take it easy today. That's fine by me because my legs have never been so tired from walking so much in my life.

Jacob

How's Asusa's new cellphone, X-Cite?

I saw that Asusa's X-Cite was released some time ago, and I can't wait to try it. Has anyone used this phone? I'm in the market for a new cellphone.

Cellboy

RE: How's Asusa's new cellphone, X-Cite?

I got my X-Cite three months ago, and it's the greatest phone ever. It connects to the Internet super fast and has a lot of memory. The camera is built in, and it's super sharp!

Phonegeek

RE: How's Asusa's new cellphone, X-Cite?

This model was not made very well and should not be bought. Like you, I was excited about getting my hands on one. However, it didn't work as well as I thought it would. Calls are dropped, and the battery wasn't made to last very long.

Postqueen

RE: How's Asusa's new cellphone, X-Cite?

I'm with Cellboy. The phone is great, and I can't imagine life without mine.

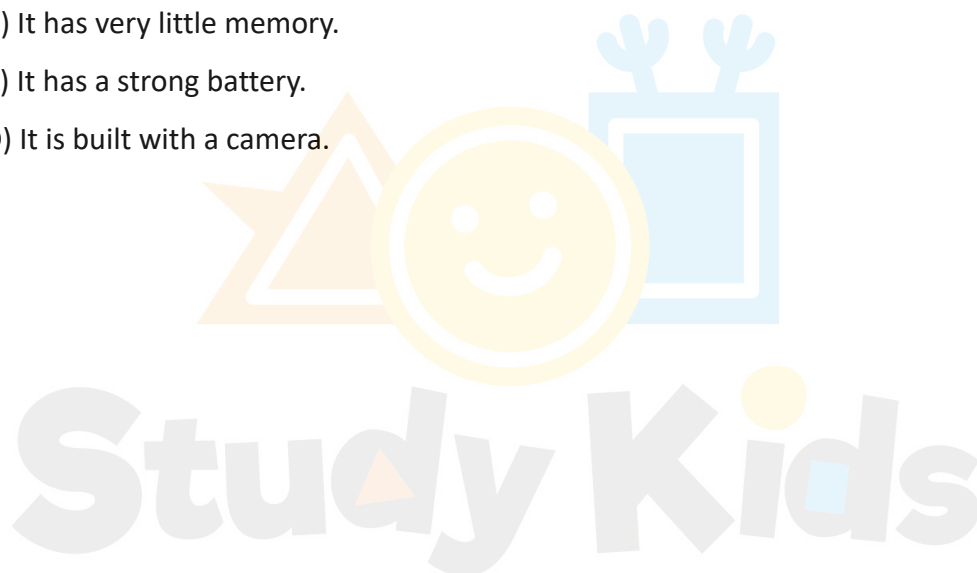

Screenprincess

RE: How's Asusa's new cellphone, X-Cite?

There's nothing good about this "cellphone" except for its looks. Once you get past that, it's just a boring old phone. It's a waste of money if you ask me.
